[BOLT.infinitechain.io](http://BOLT.infinitechain.io)

# Outline

- ▶ Overview
- ▶ Anti-fraud Mechanism
- ▶ Architecture
- ▶ Protocol
- ▶ Demo

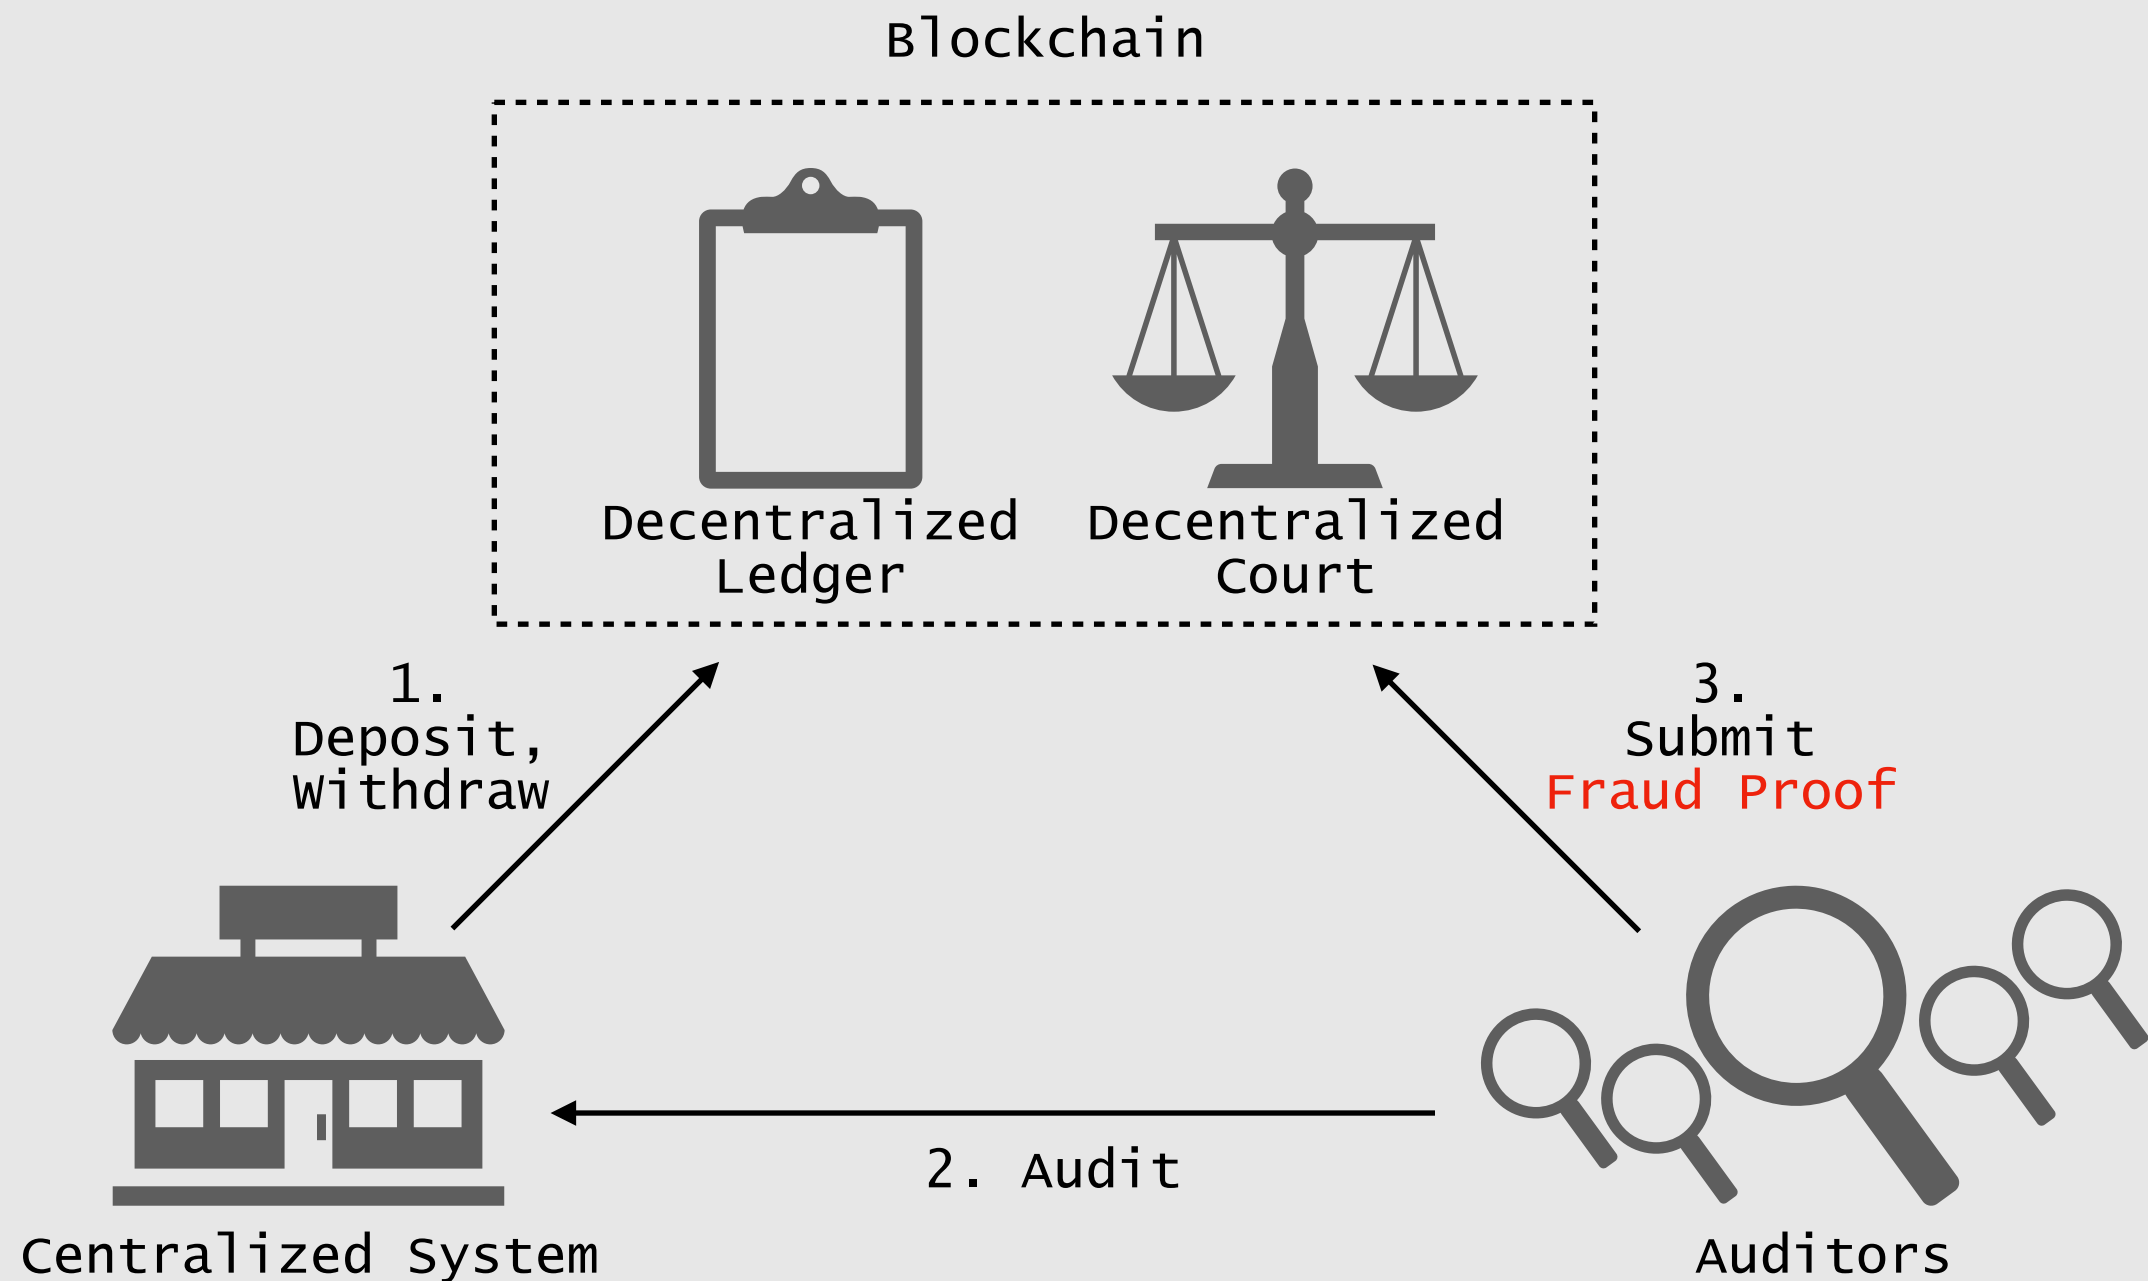

# Overview (1)

- ▶ BOLT is a layer 2 scalability solution that integrates centralized system
- ▶ Borrow ideas from state channel, truebit and plasma
- ▶ Use cases include E-commerce, ...

# Overview (2)

	Plasma MVP	BOLT
Blockchain Trilemma	Decentralized Secure Not Scalable	Scalable Secure Not Decentralized
Fraud Proof	Merkle Proof	Merkle Proof + Receipts
Transactional Model	UTXO	UTXO-like + Account-based
Anti-fraud Mechanism	Mass Exit + Punishment	Mass Exit + Punishment + Auditing

# Anti-fraud Mechanism

# Anti-fraud Mechanism

## Game

- ▶ Centralized System v.s Auditors
- ▶ The essential part of decentralization is to design a system that makes participants inspect each other like a game and incentivize participants to do the right thing
- ▶ Similar design in Truebit

# Anti-fraud Mechanism

## Court

- ▶ 透過 Fraud Proof 排解紛爭
- ▶ Transparent and immutable
- ▶ Similar design in Plasma / Truebit

# Anti-fraud Mechanism

## Fraud Proof

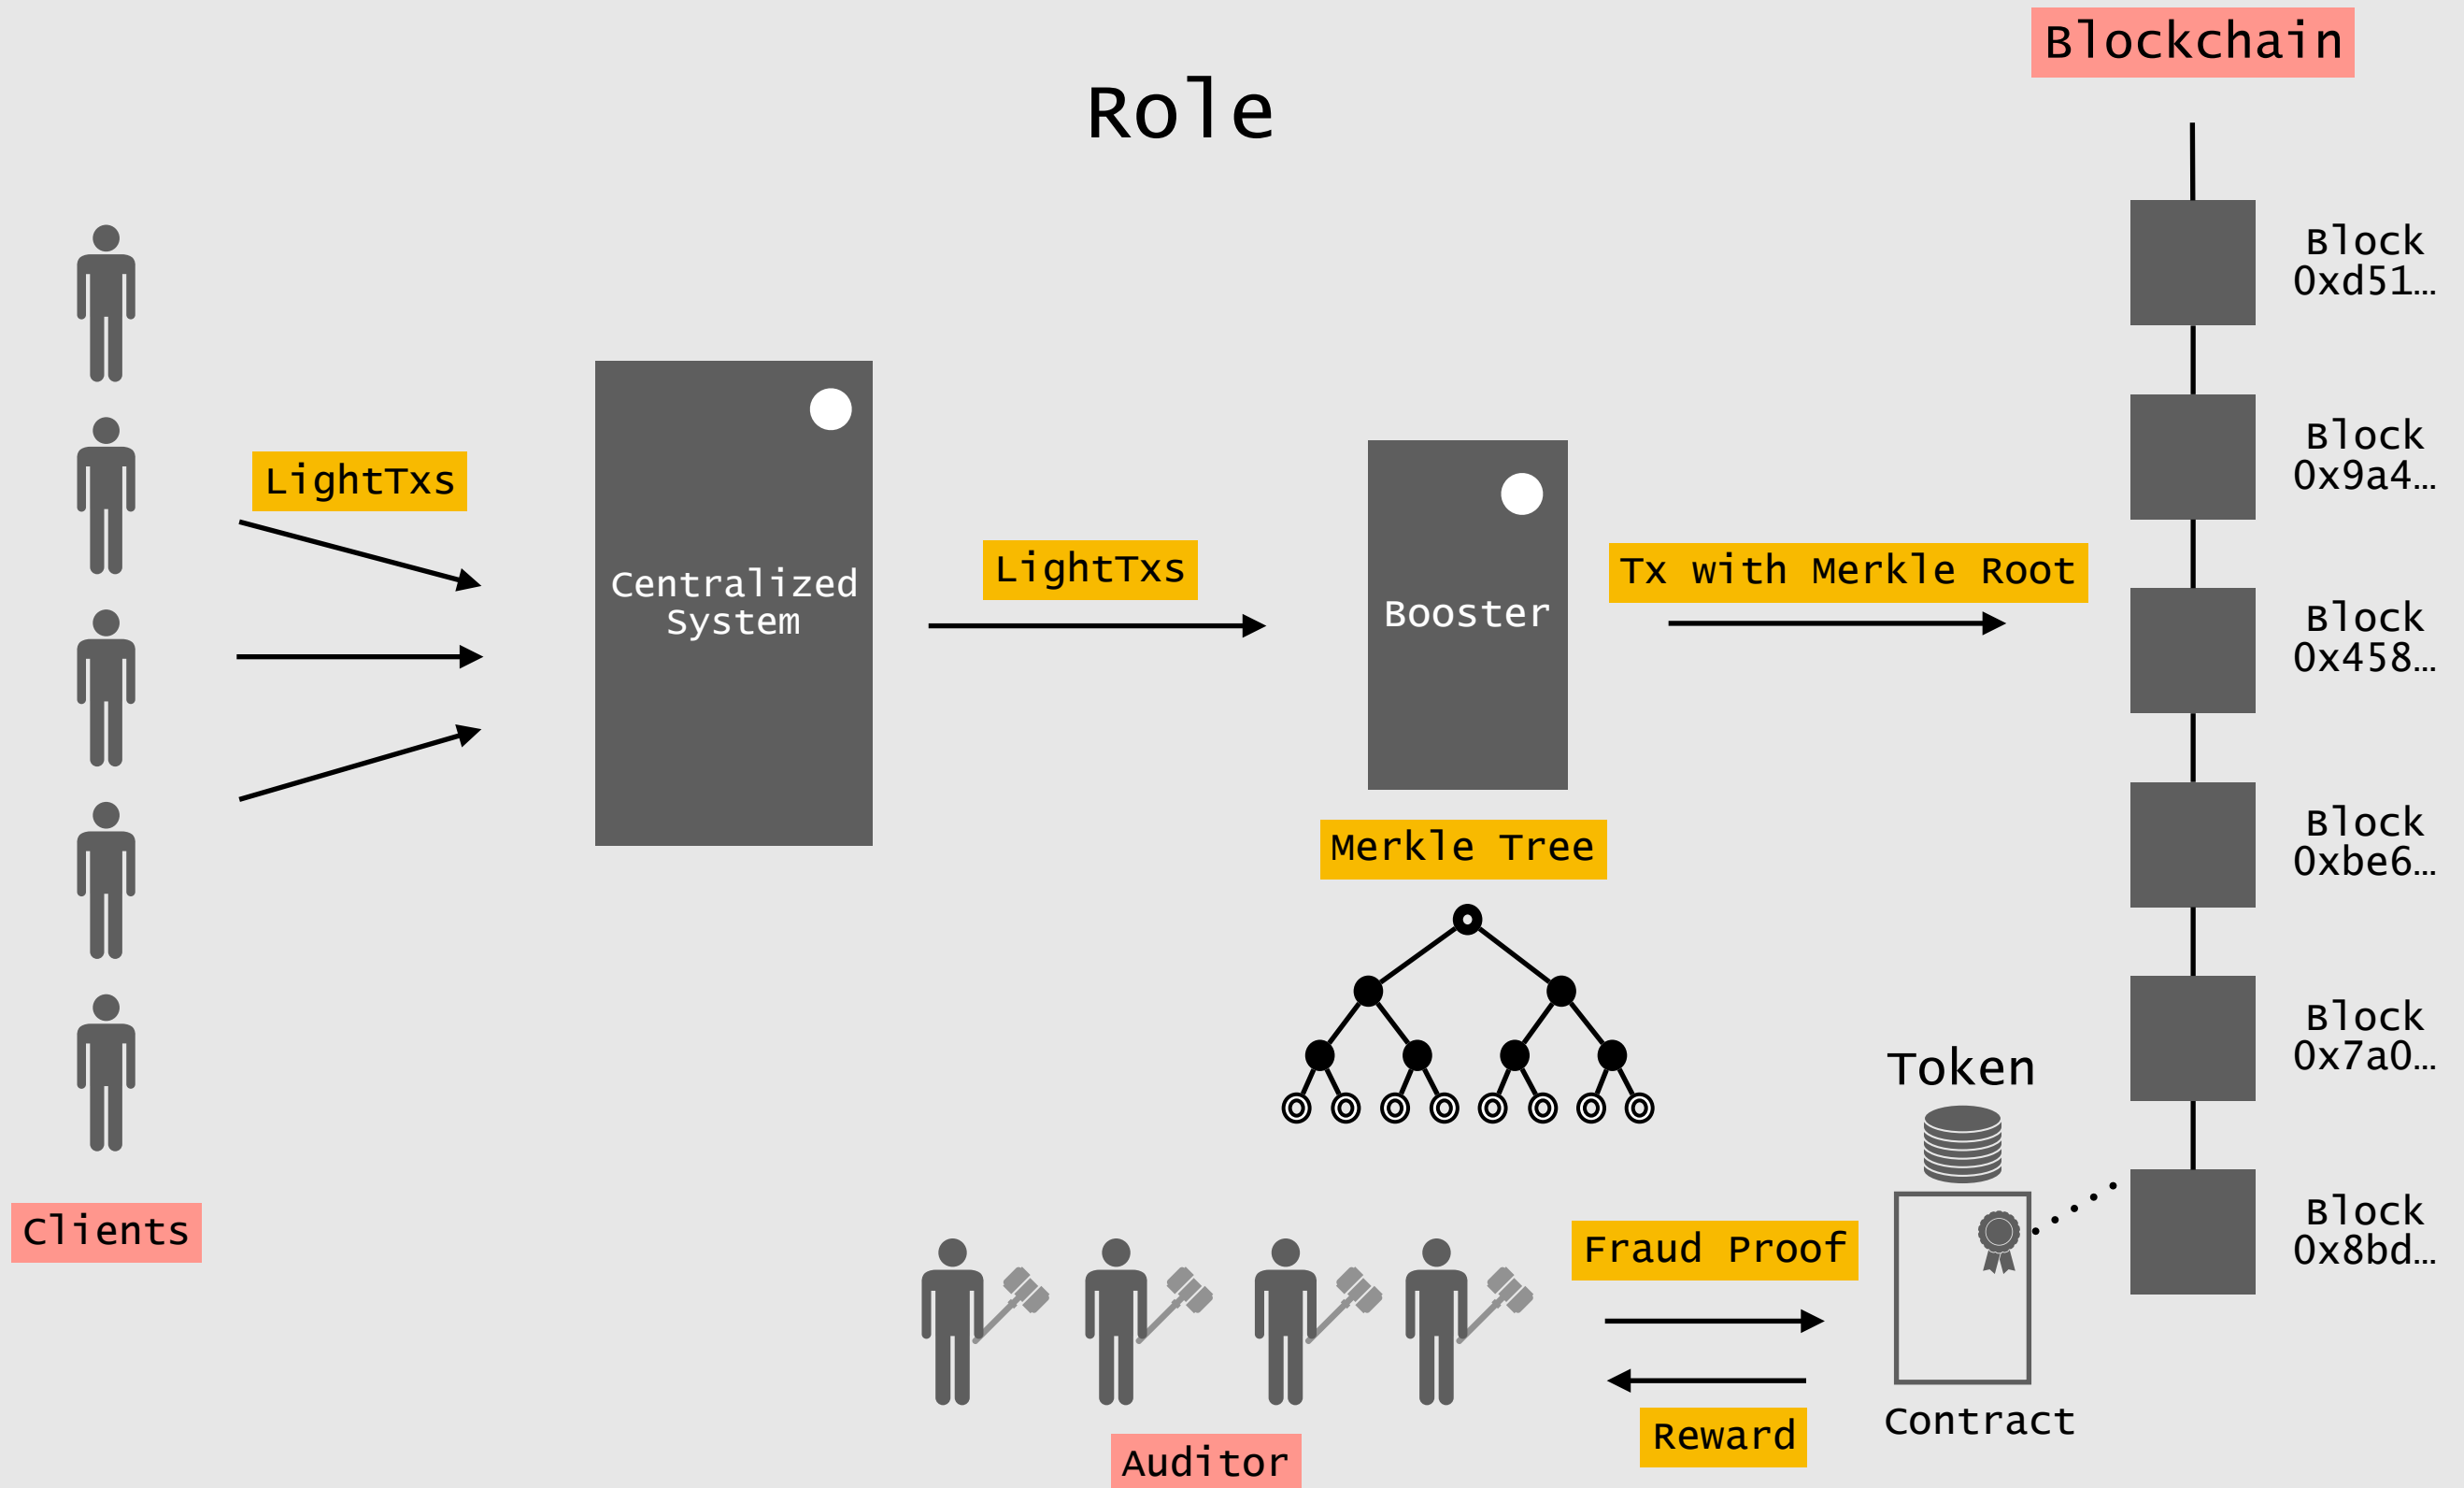

- ▶ Merkle proof

- ▶

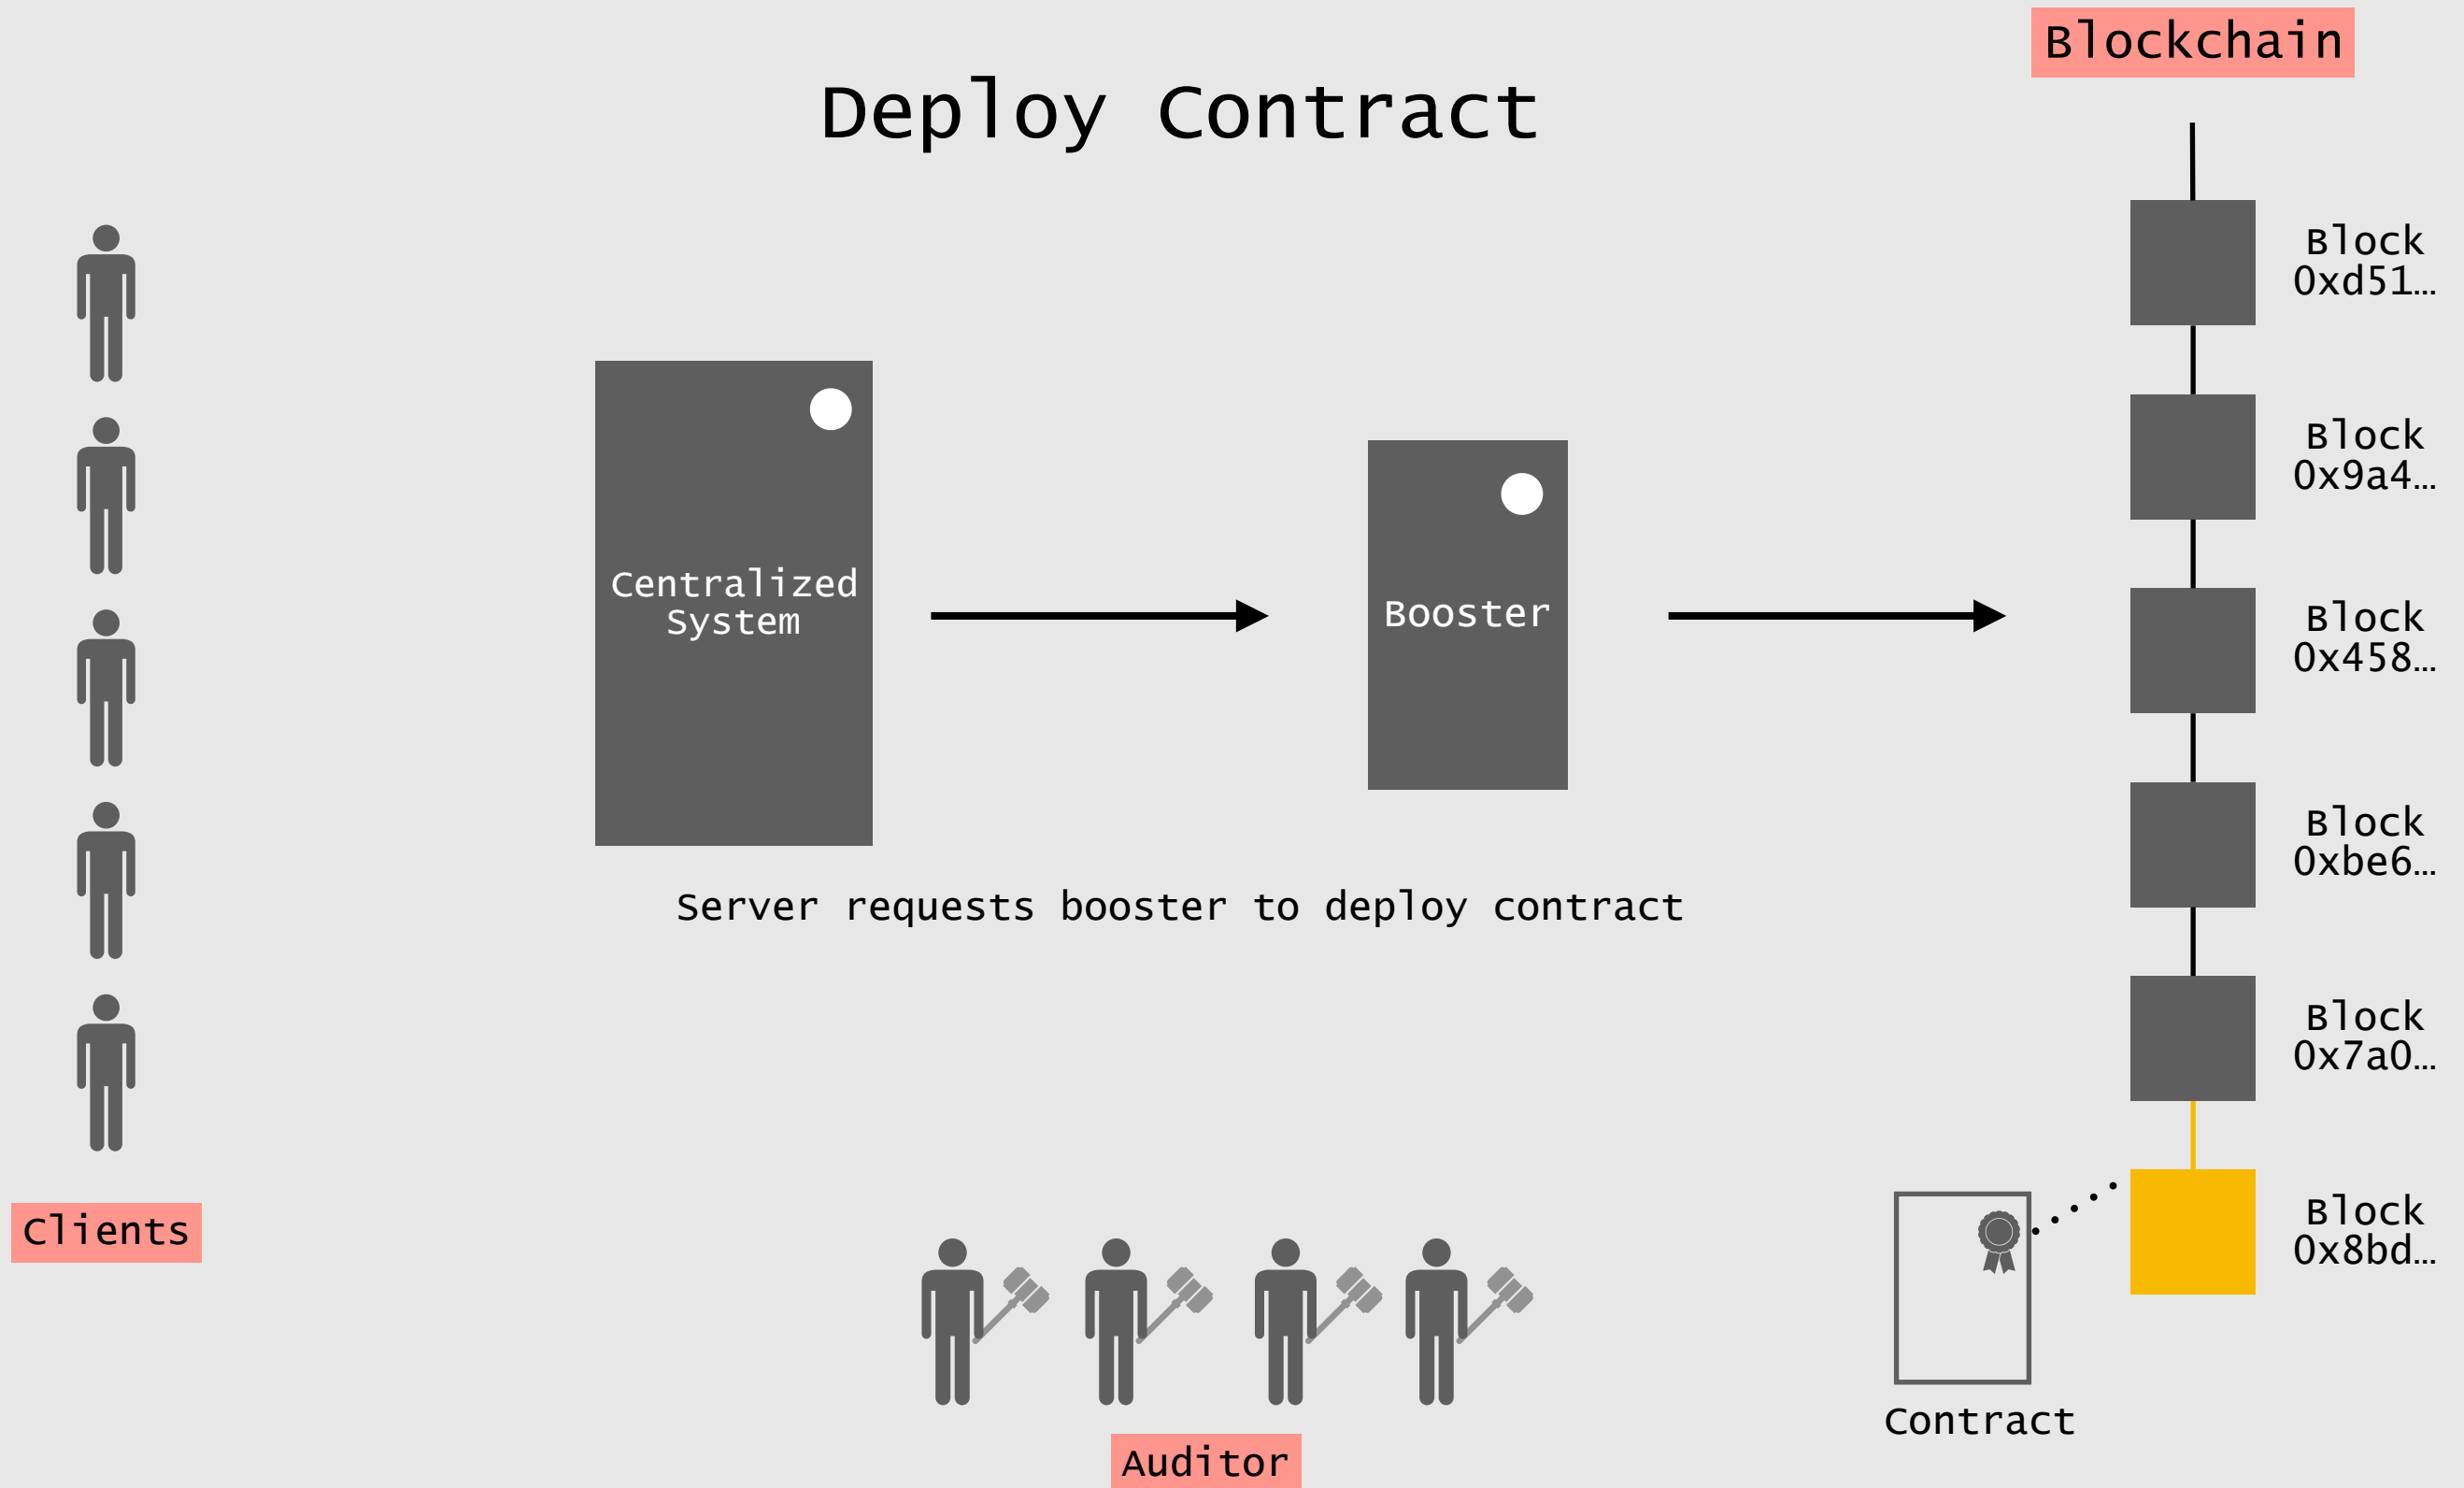

# Architecture

## Role

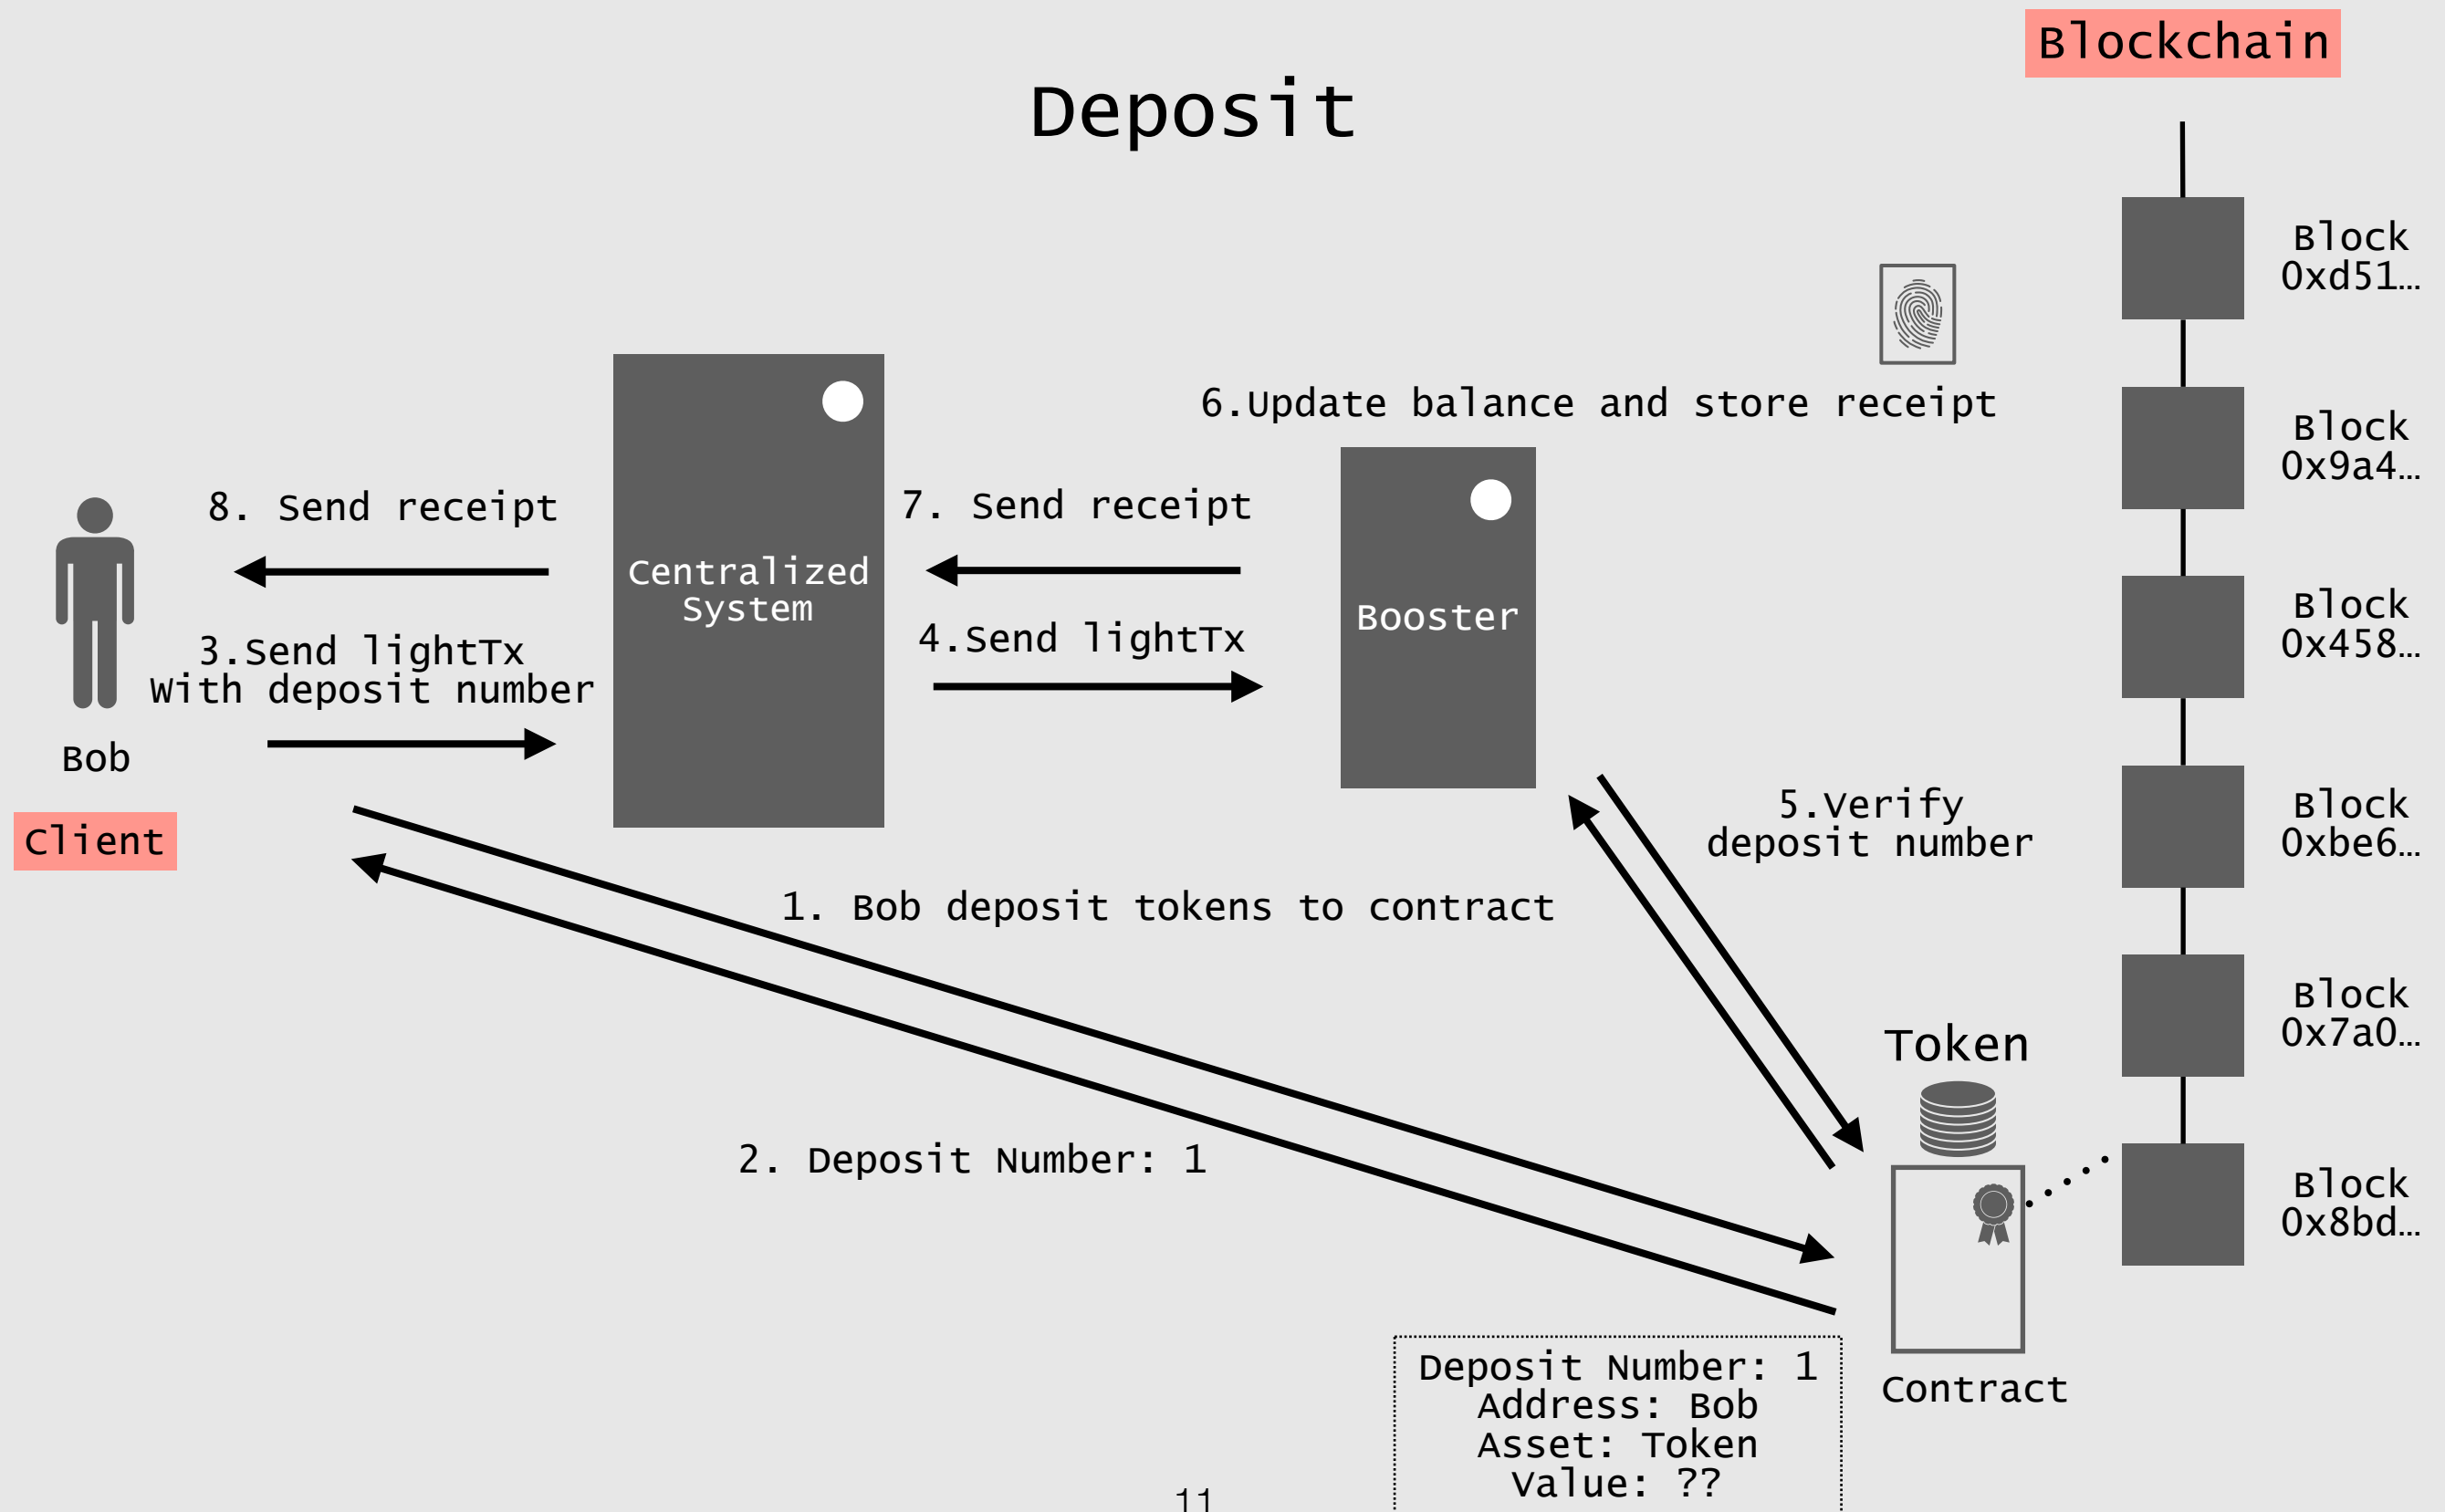

# Protocol (1)

## Deploy Contract

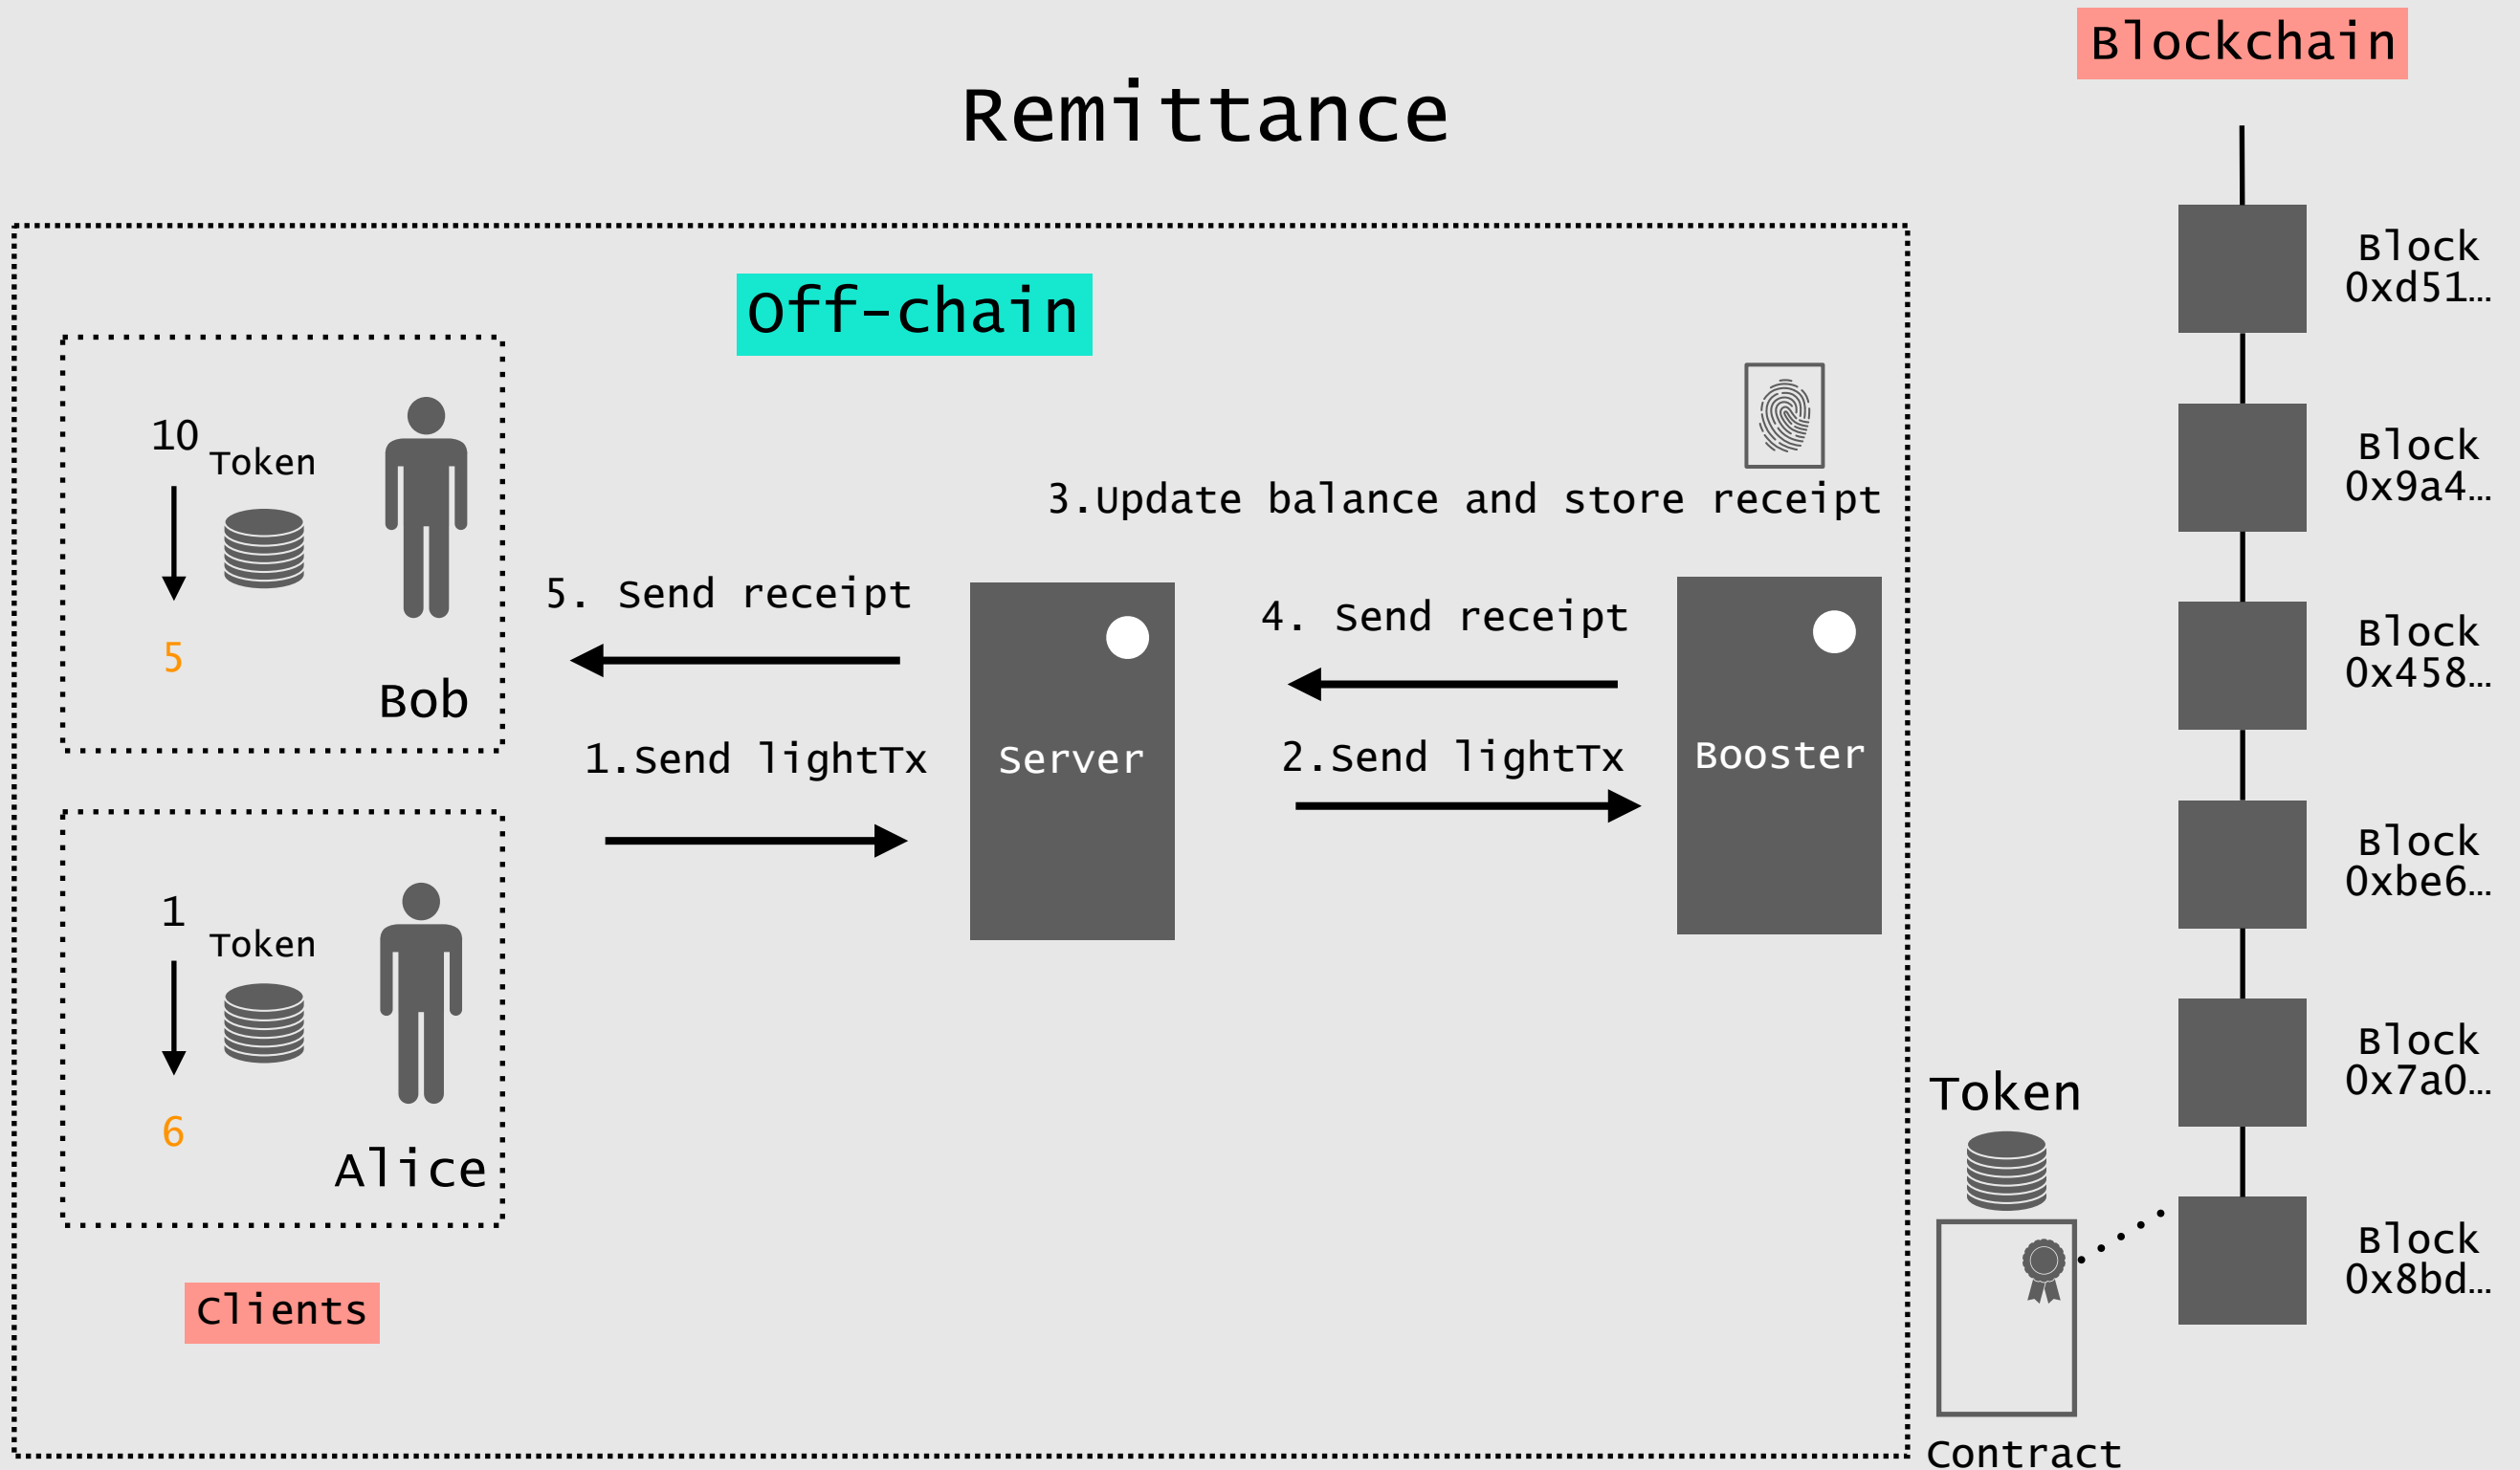

# Protocol (2)

## Deposit

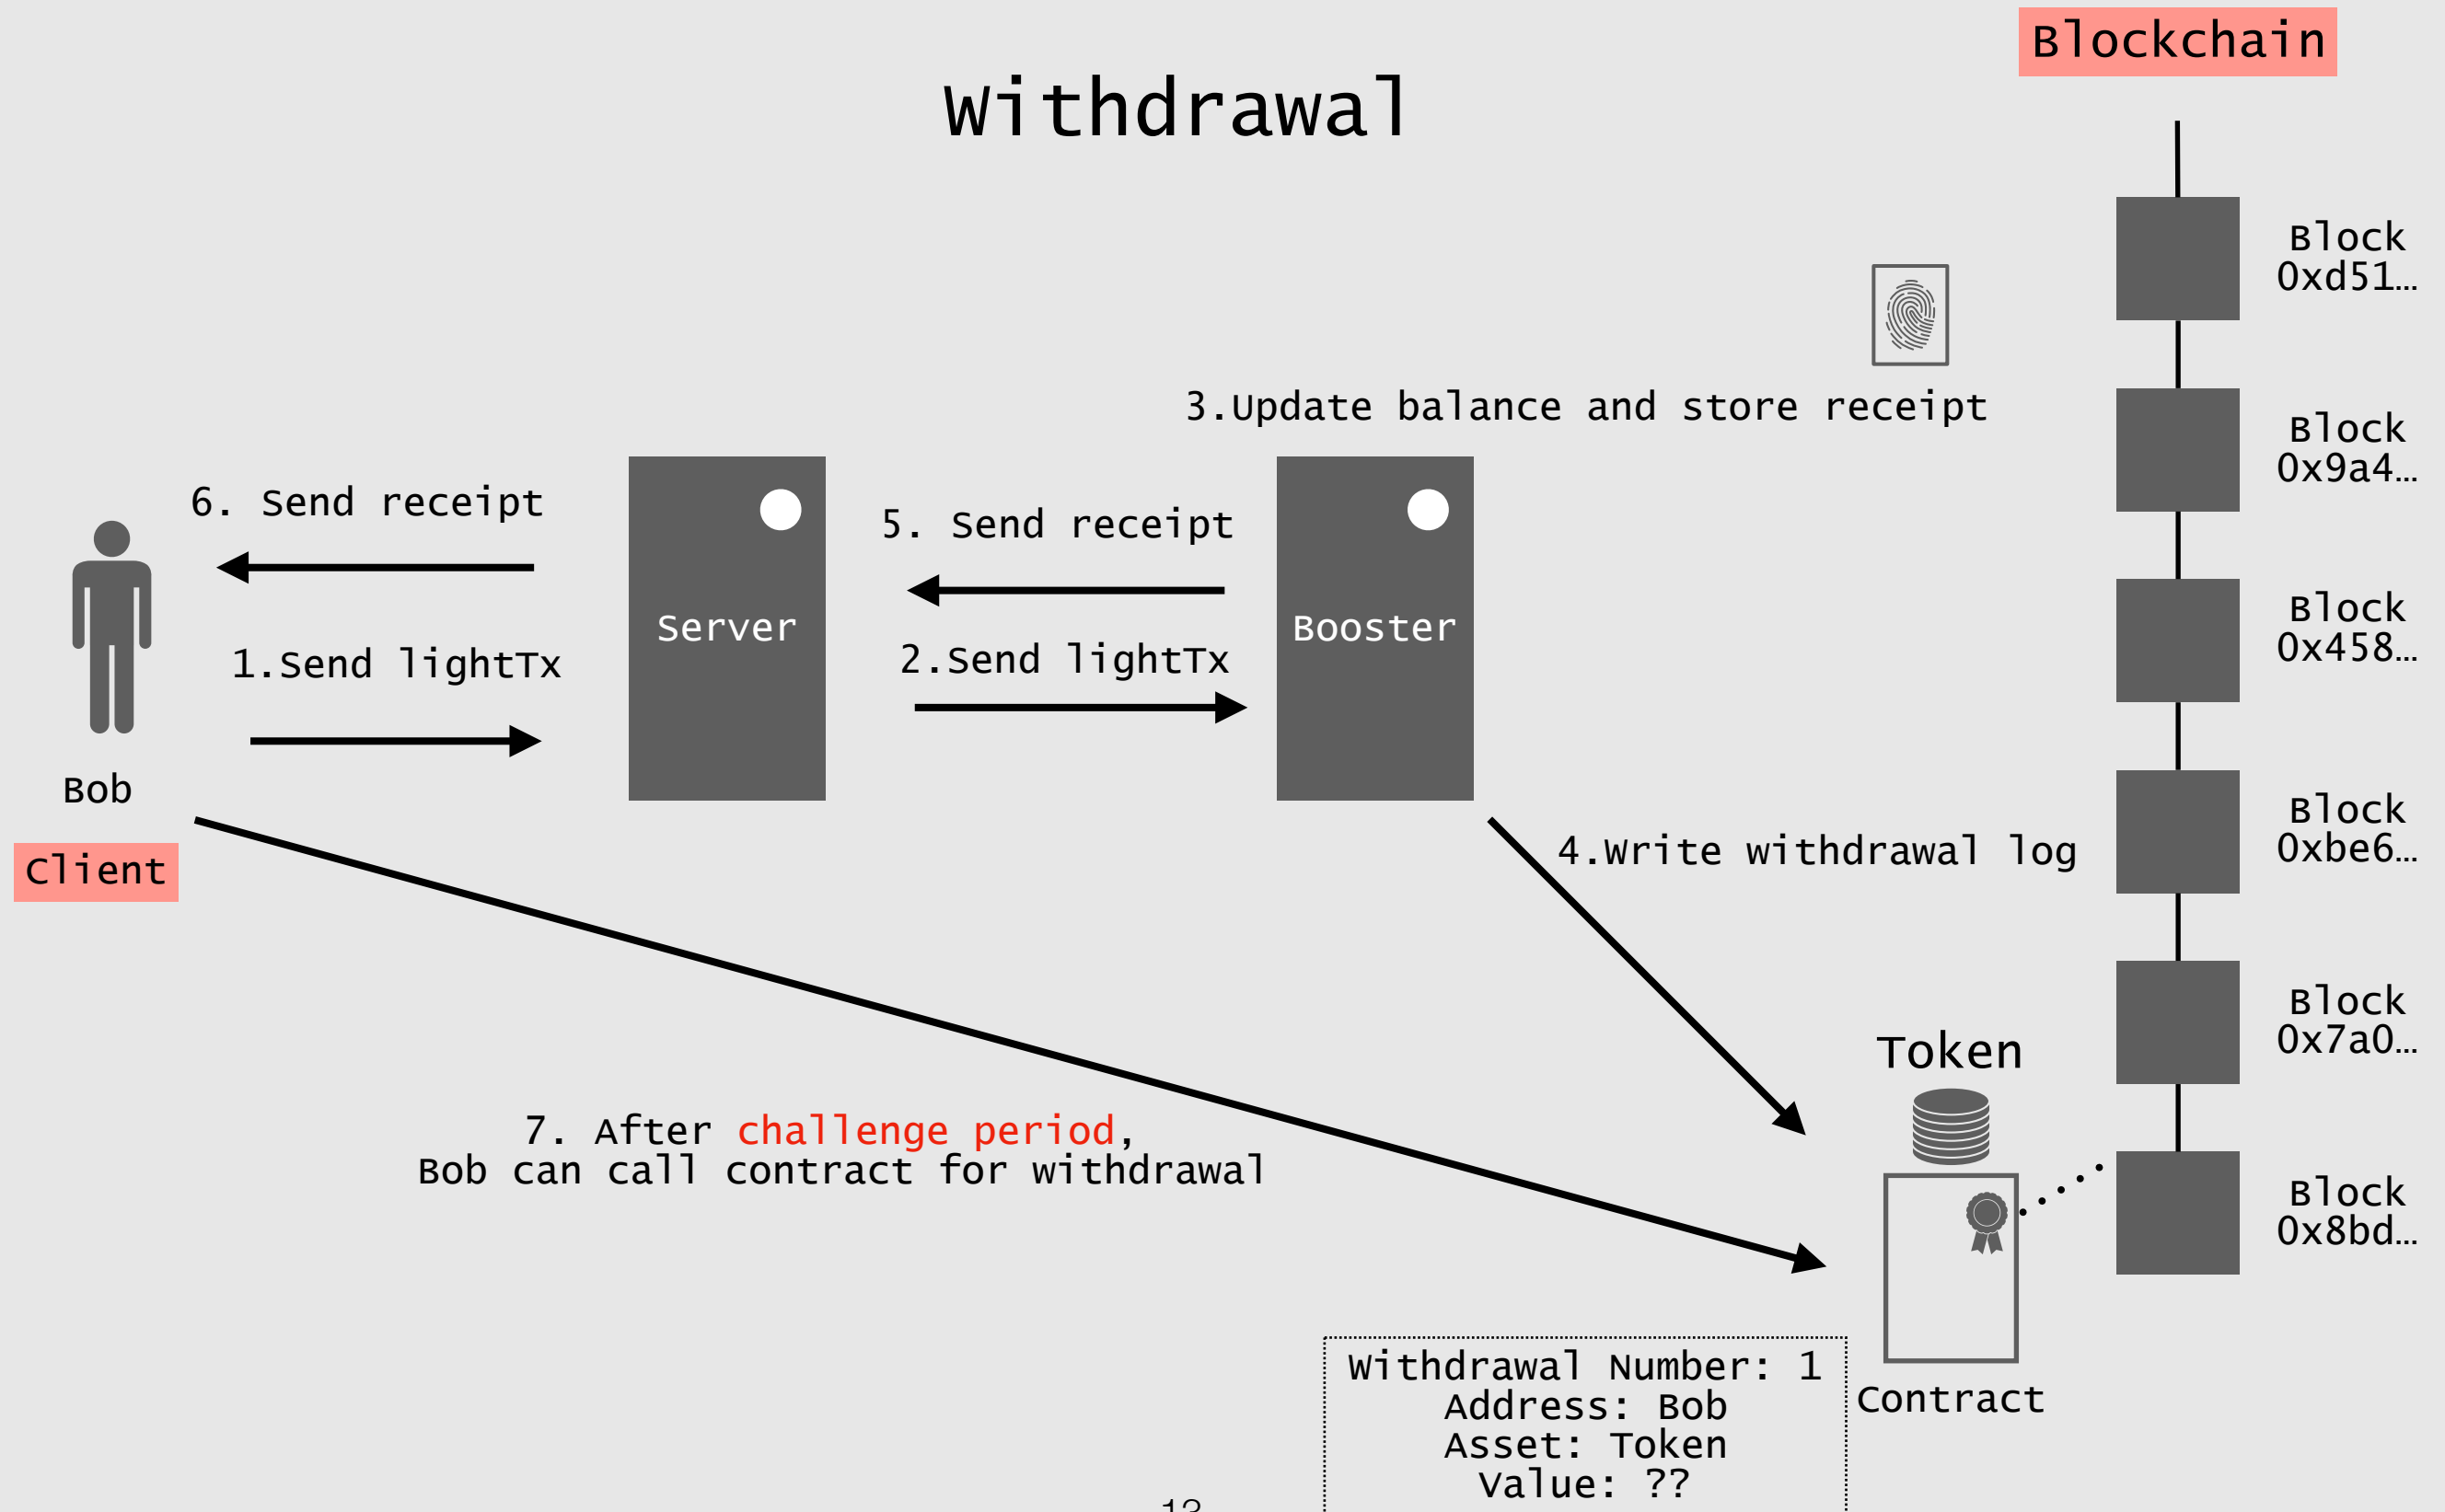

# Protocol (3)

## Remittance

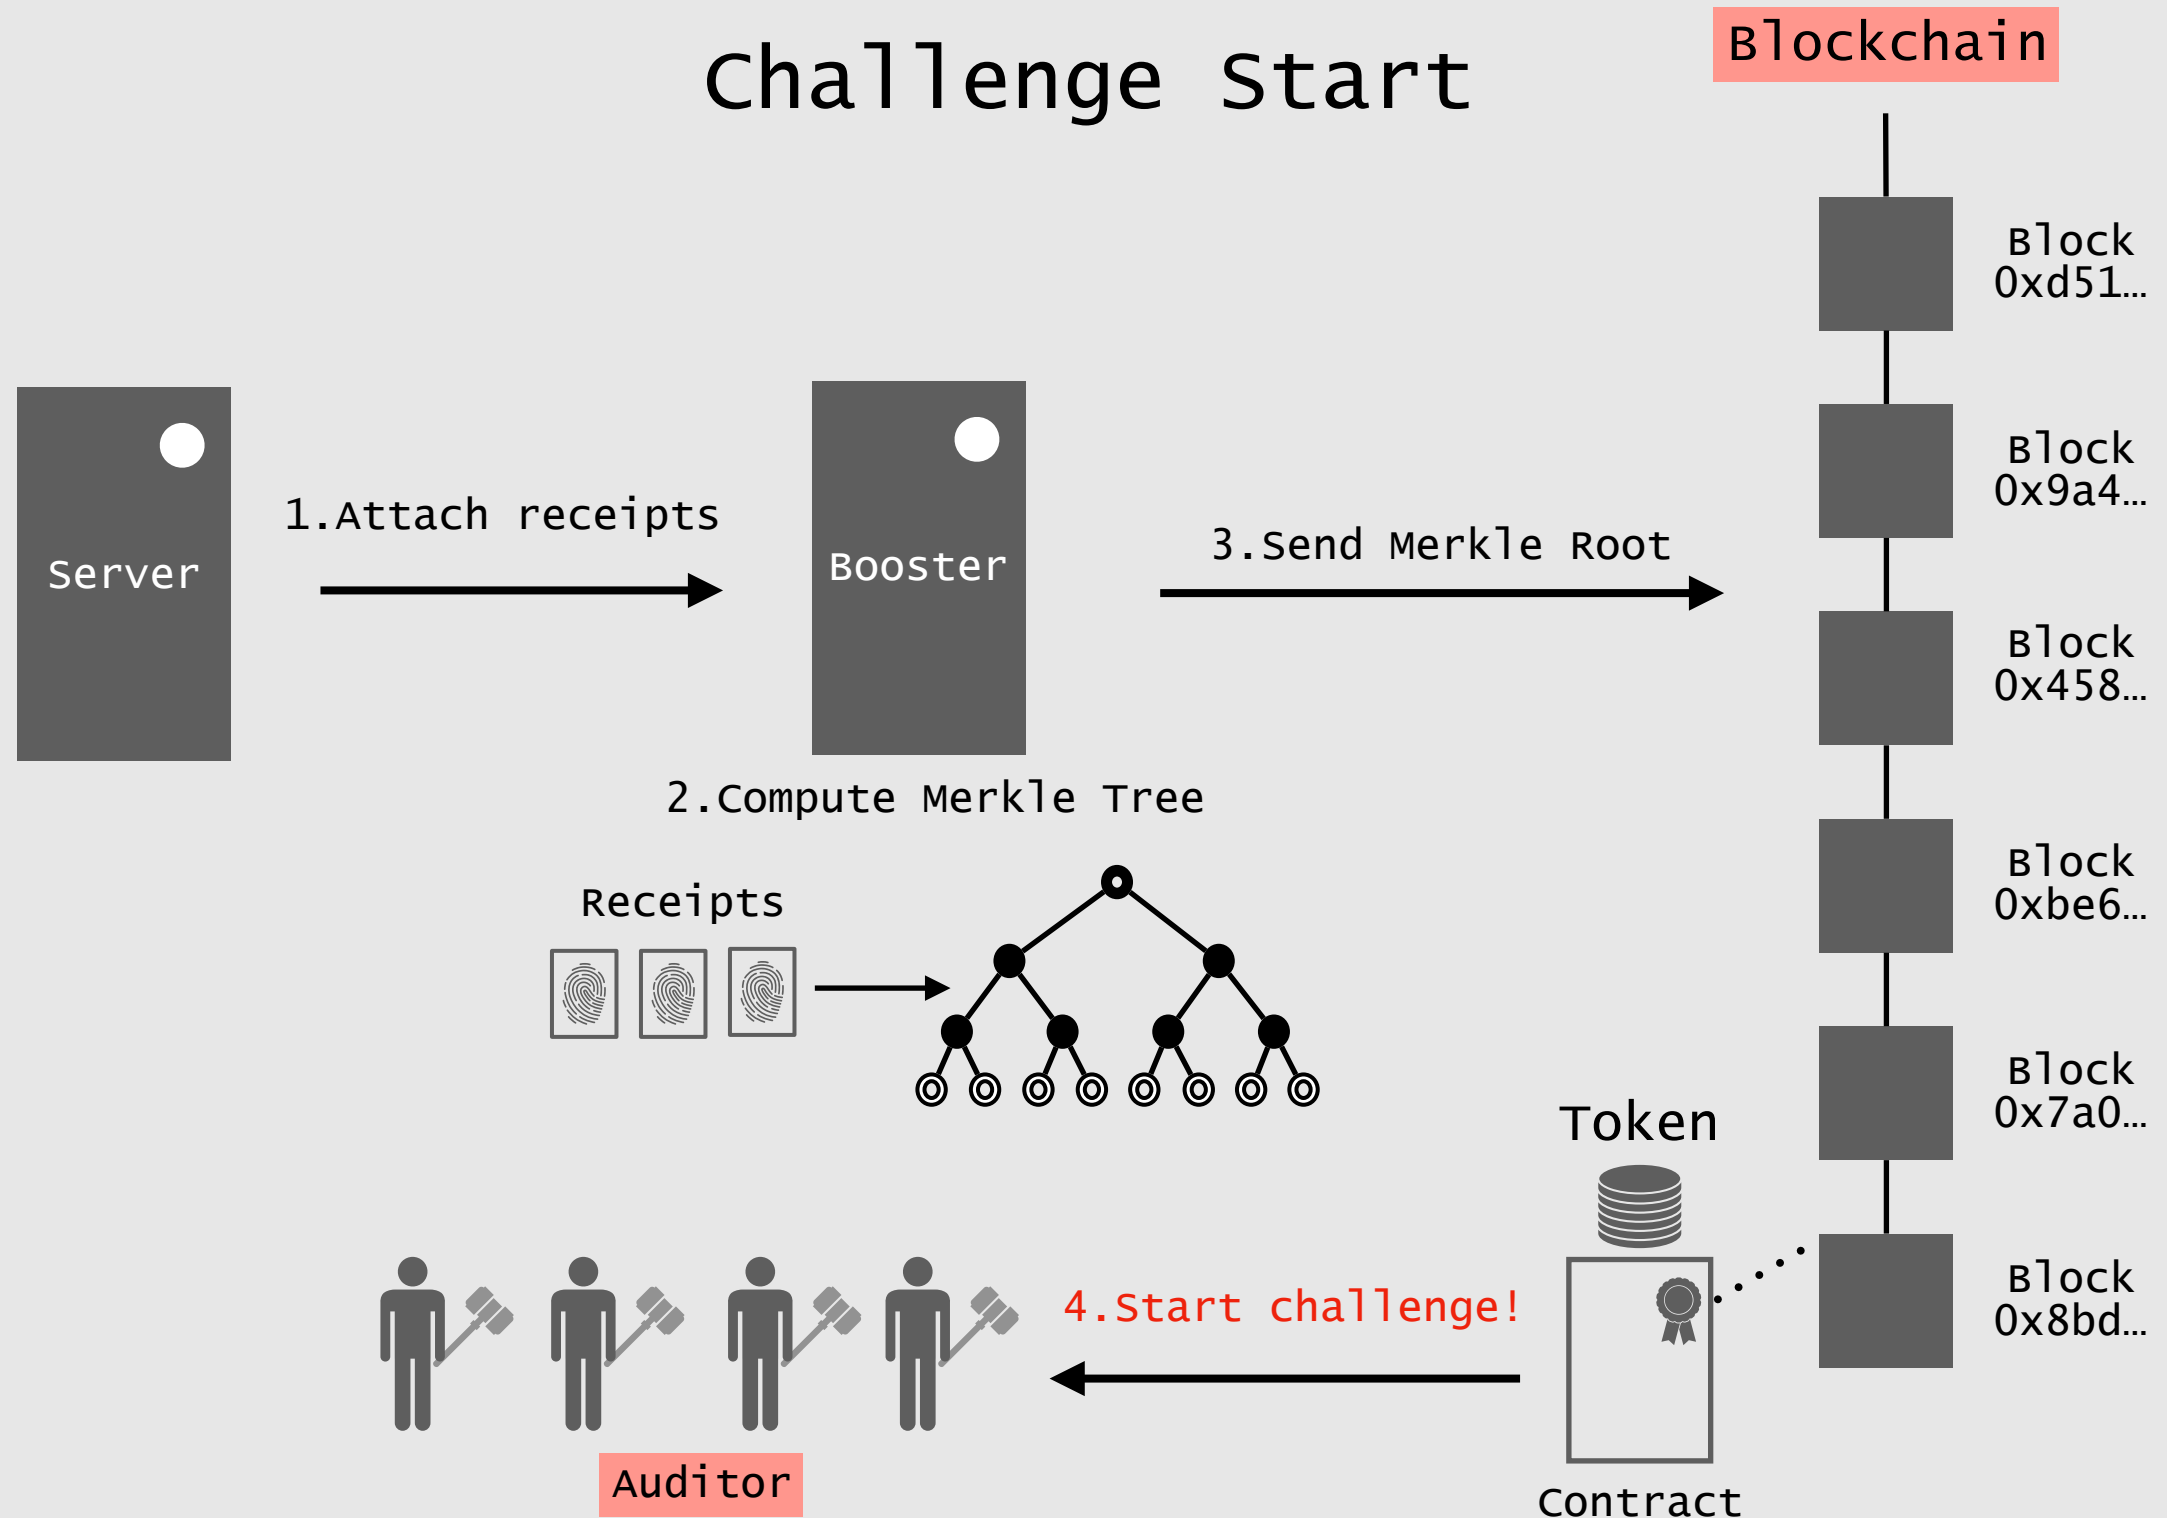

# Protocol (4)

## withdrawal

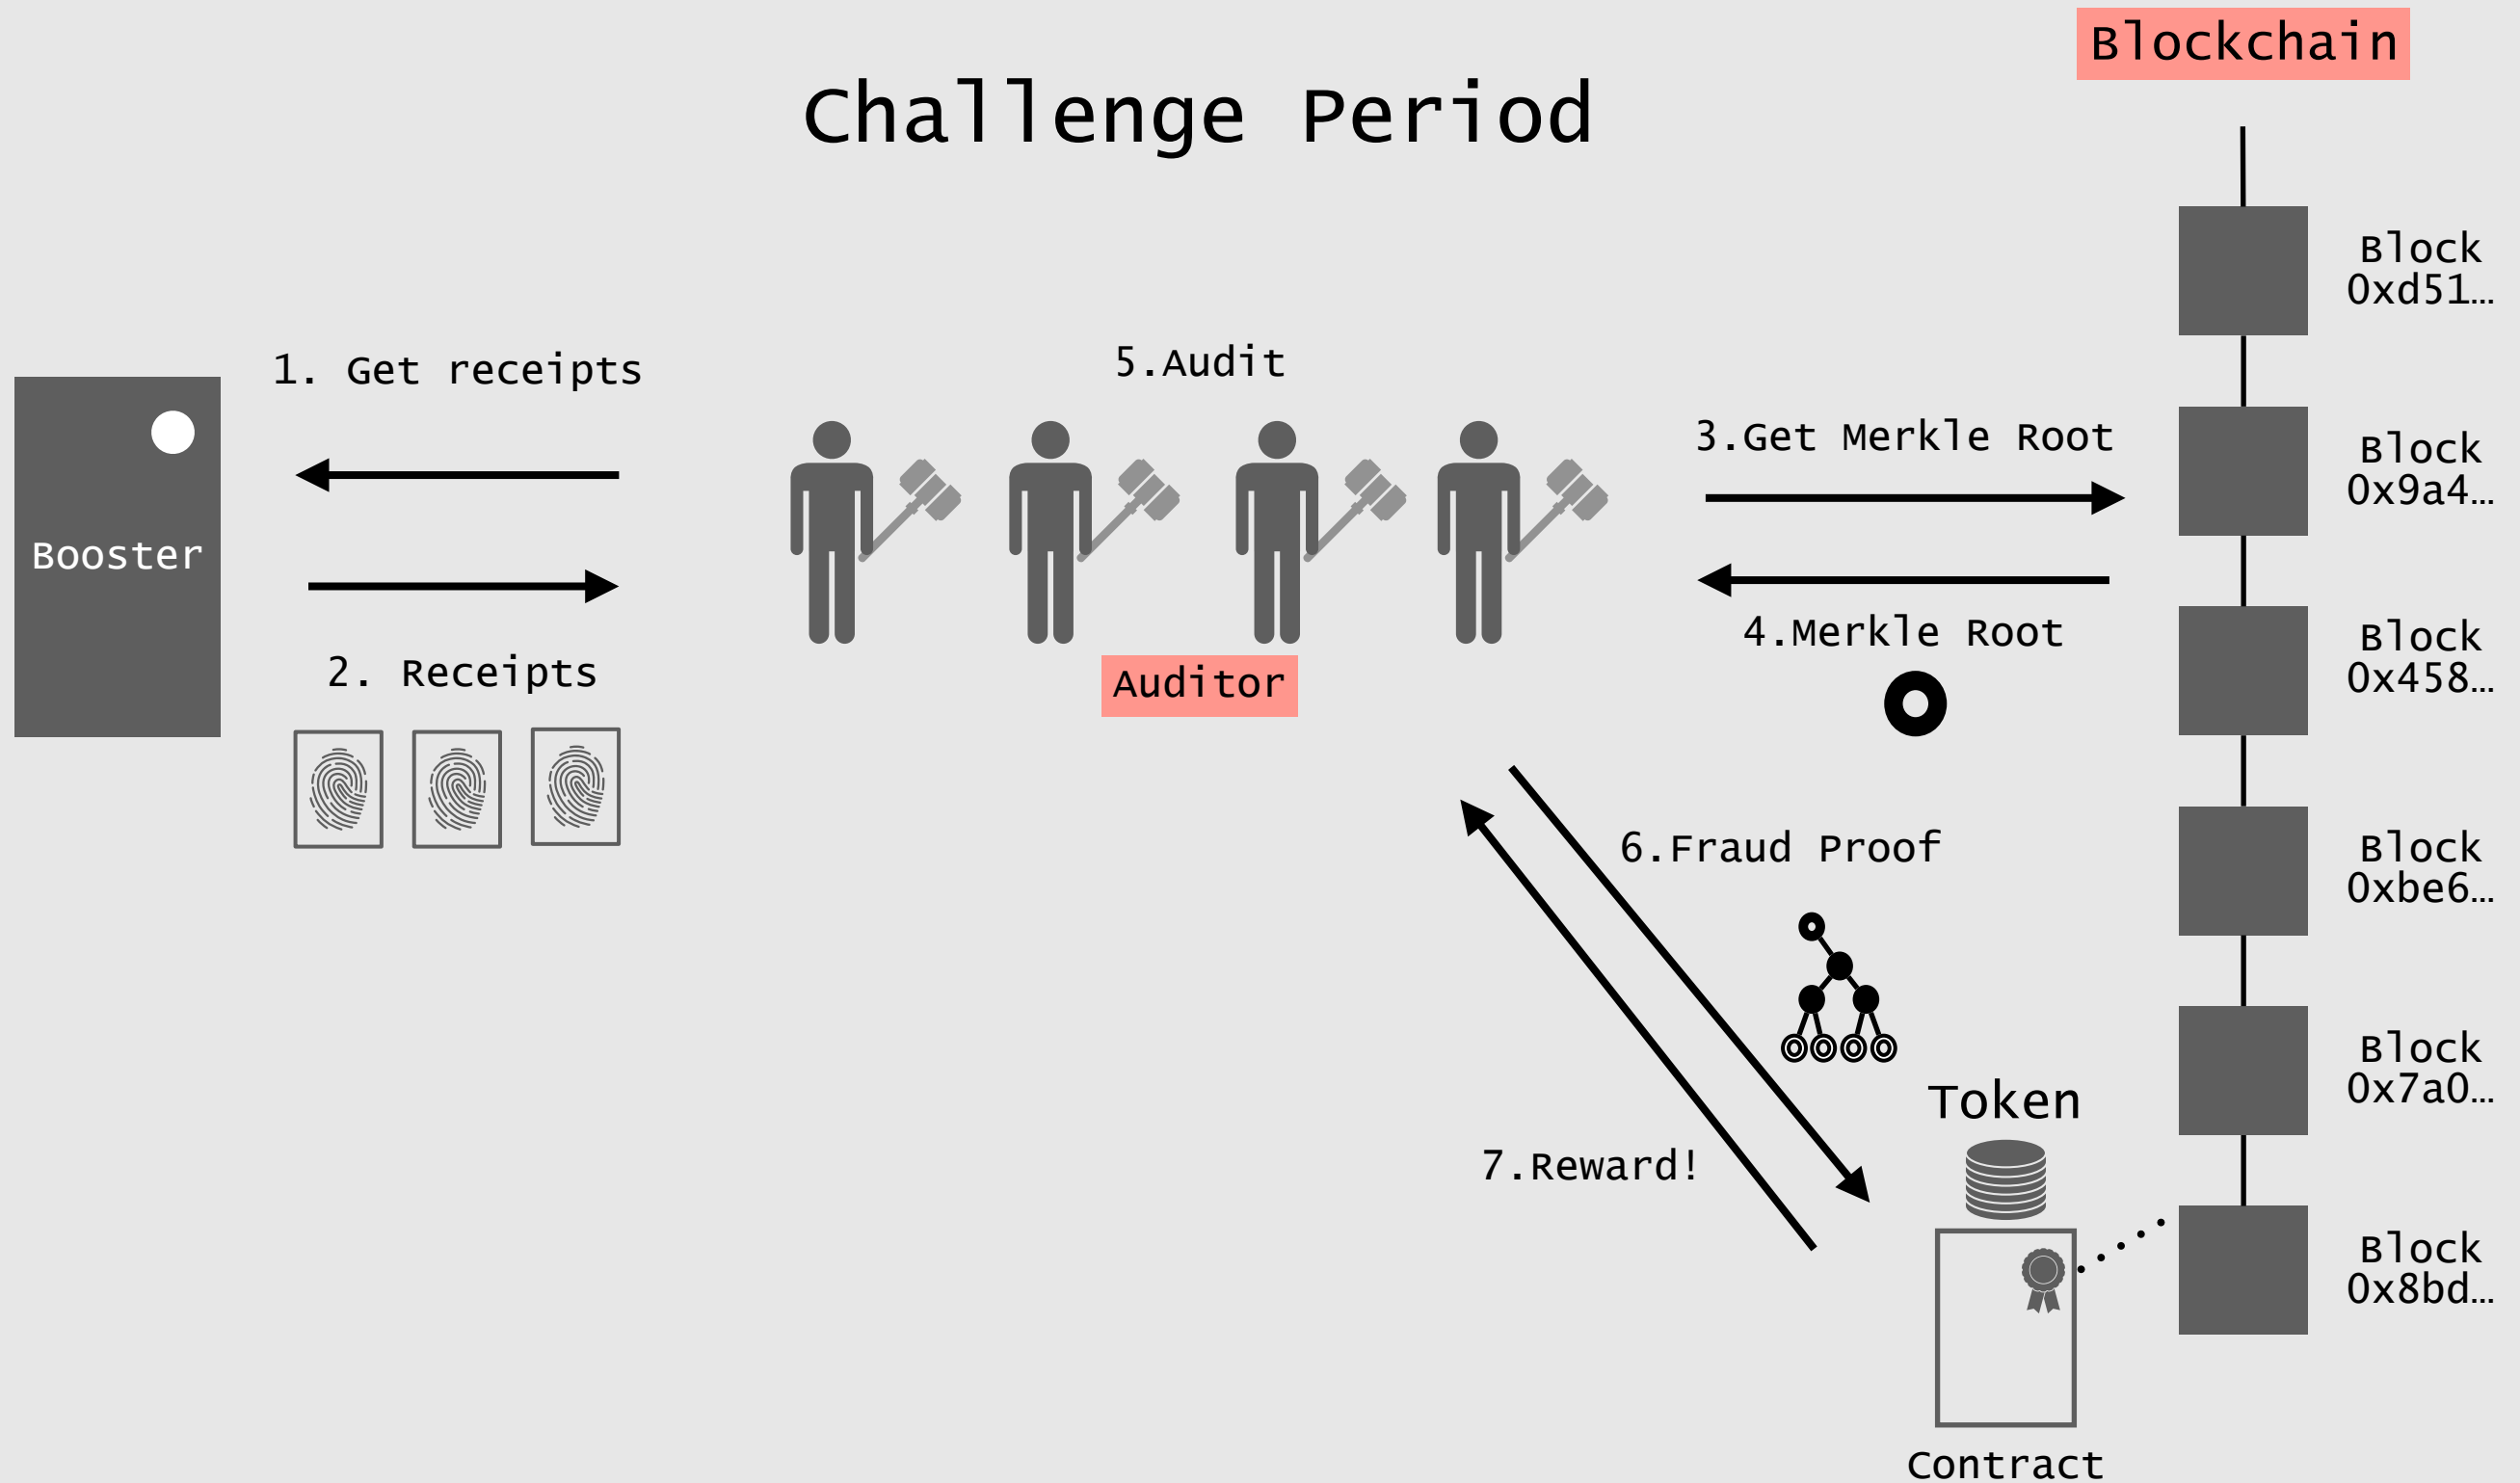

# Protocol (5)

## Challenge Start

# Protocol (6)

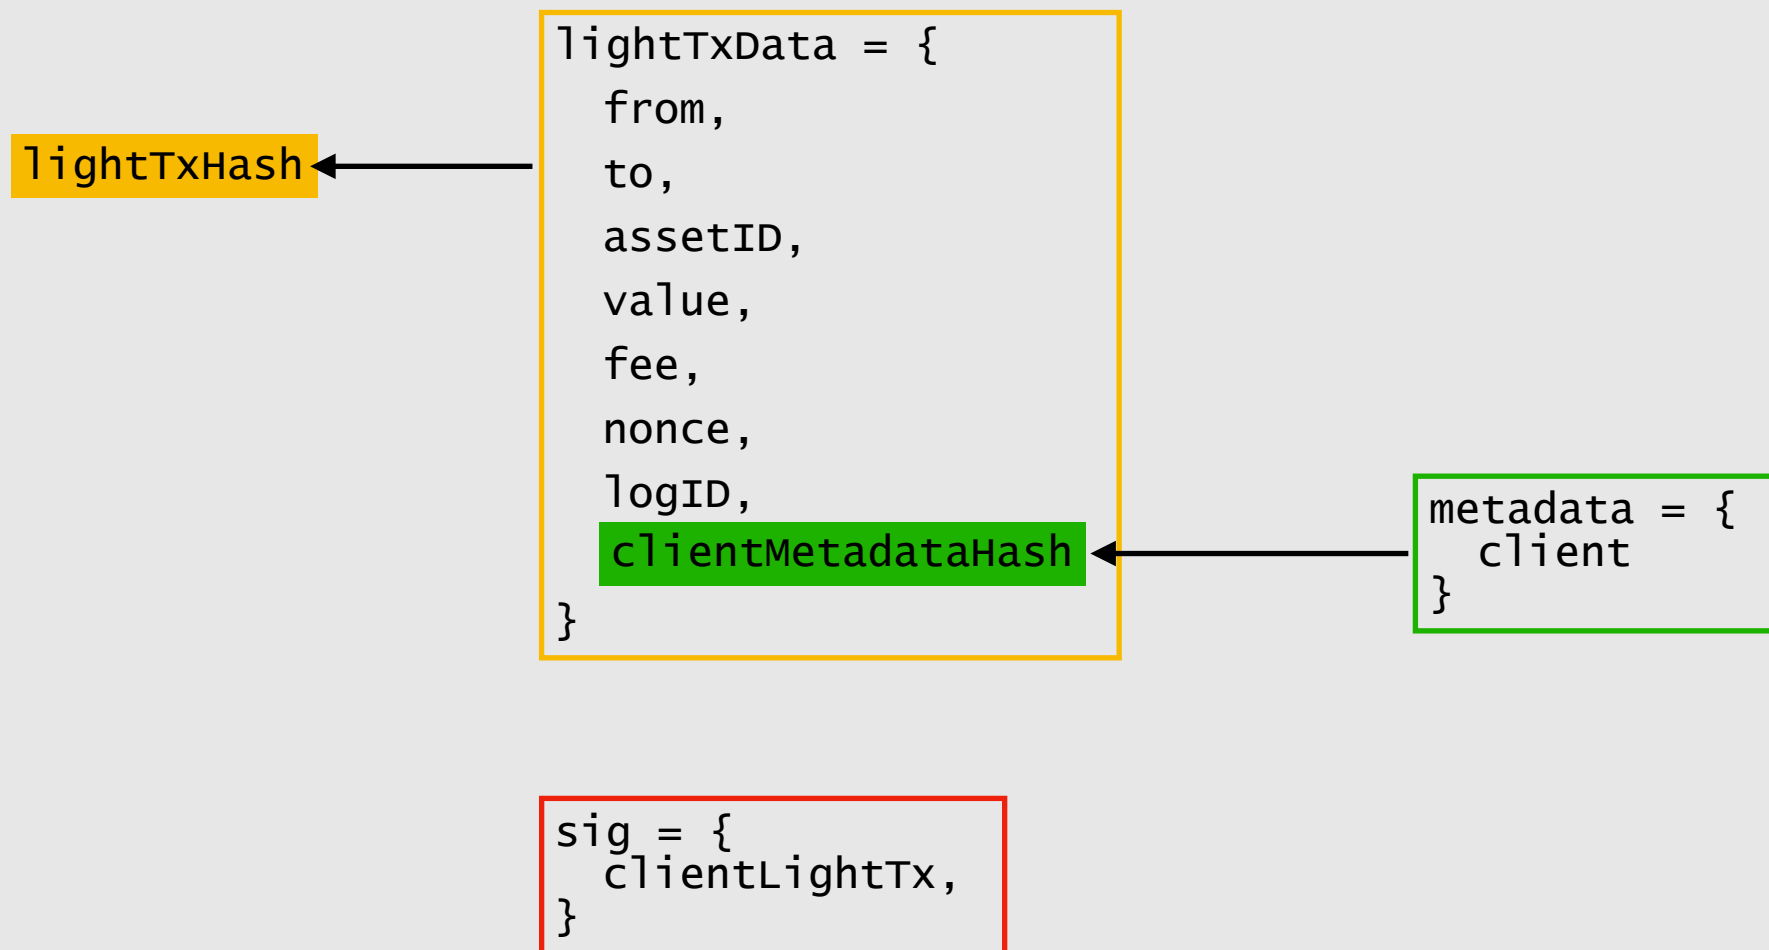

## Challenge Period

# Protocol (7)

## Data Model

### Light Transaction

# Protocol (8)

## Data Model

### Receipt

lightTxHash

```
lightTxData = {  
  from,  
  to,  
  assetID,  
  value,  
  fee,  
  nonce,  
  logID,  
  clientMetadataHash  
}
```

```
metadata = {  
  client,  
  server  
}
```

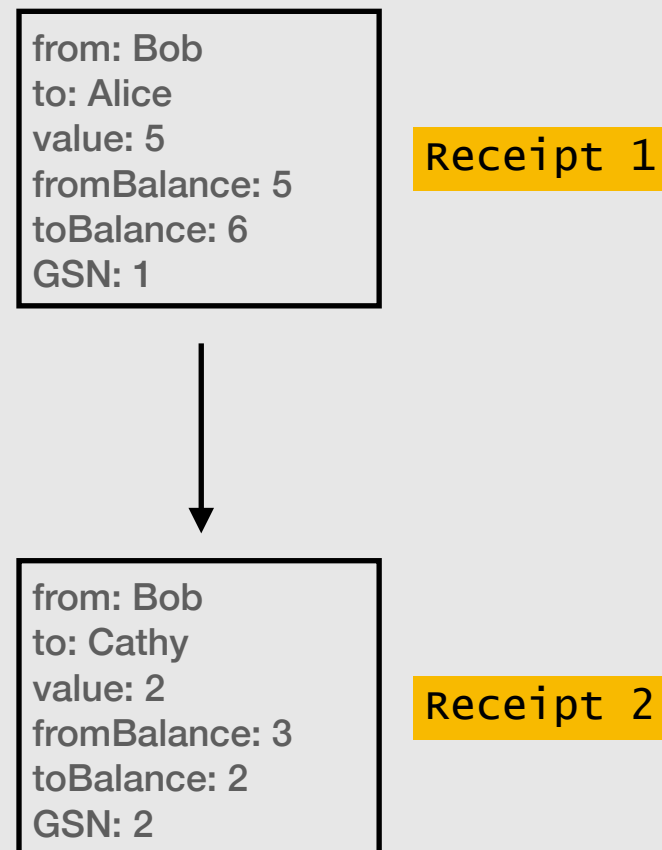

receiptHash

```
receiptData = {  
  stageHeight,  
  GSN,  
  lightTxHash,  
  fromBalance,  
  toBalance,  
  serverMetadataHash  
}
```

```
sig = {  
  clientLightTx,  
  serverLightTx,  
  serverReceipt  
}
```

# Protocol (9)

## Example

# Protocol (10)

## Fraud Proof

1. Non-existed receipt
2. Repeated GSN
3. Skipped GSN
4. Wrong balance status

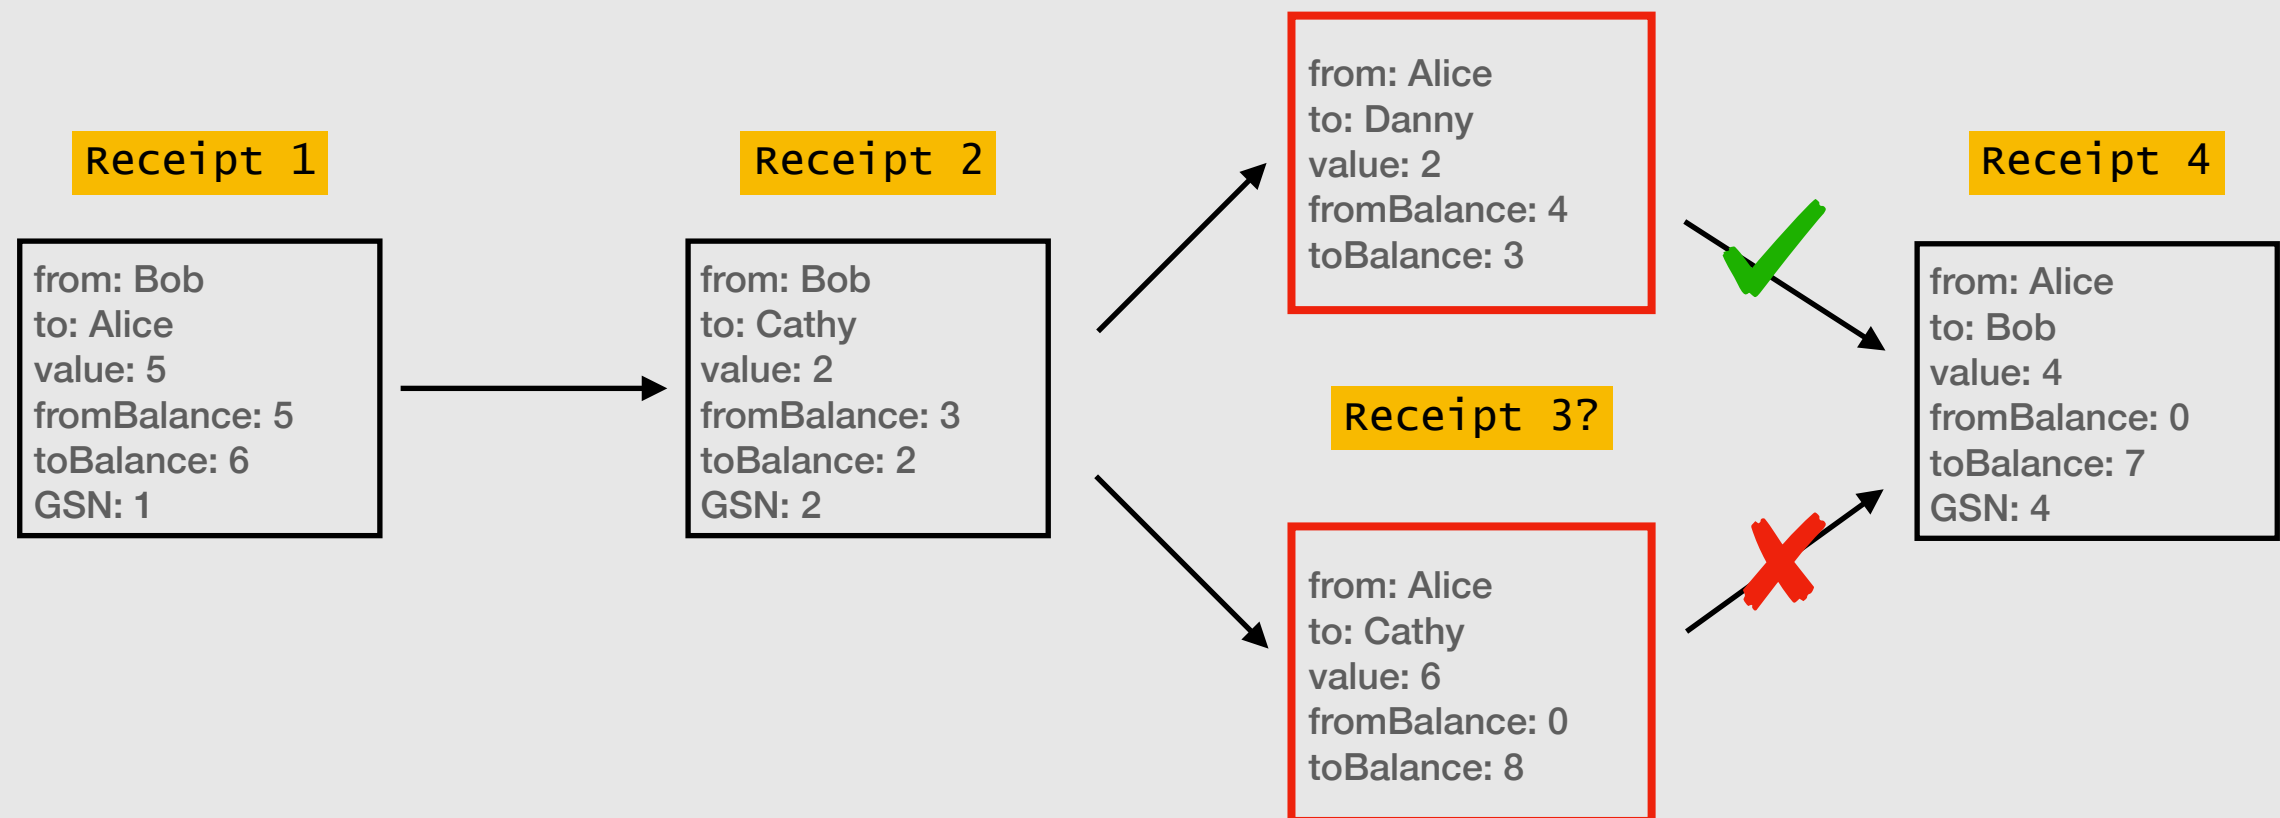

# Fraud Proof (1)

Non-existed Receipt

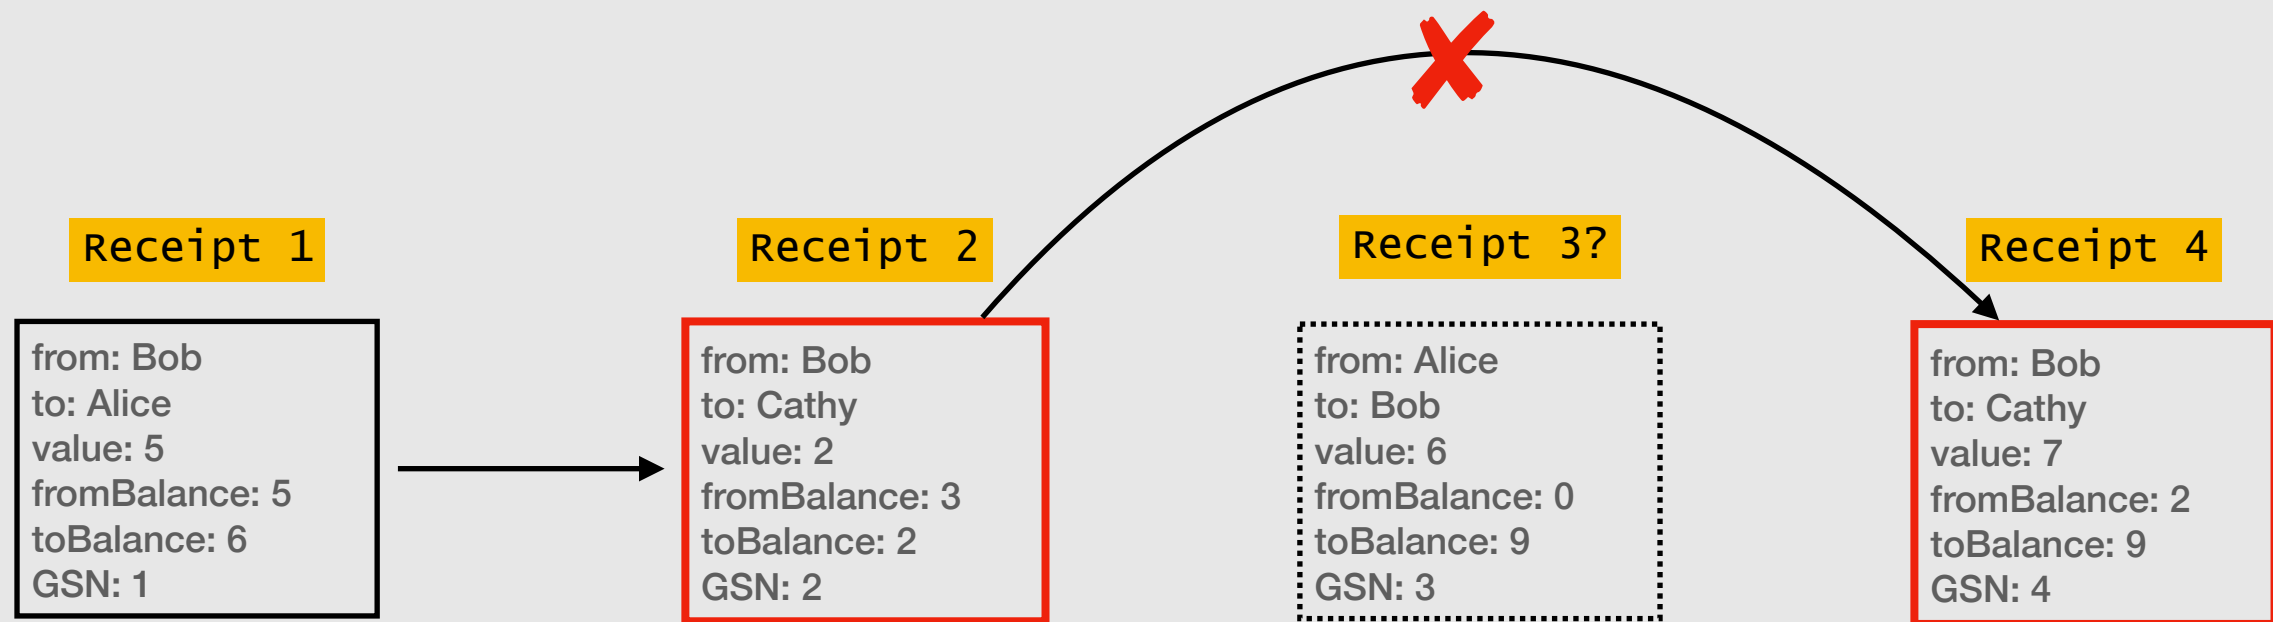

# Fraud Proof (2)

## Repeated GSN

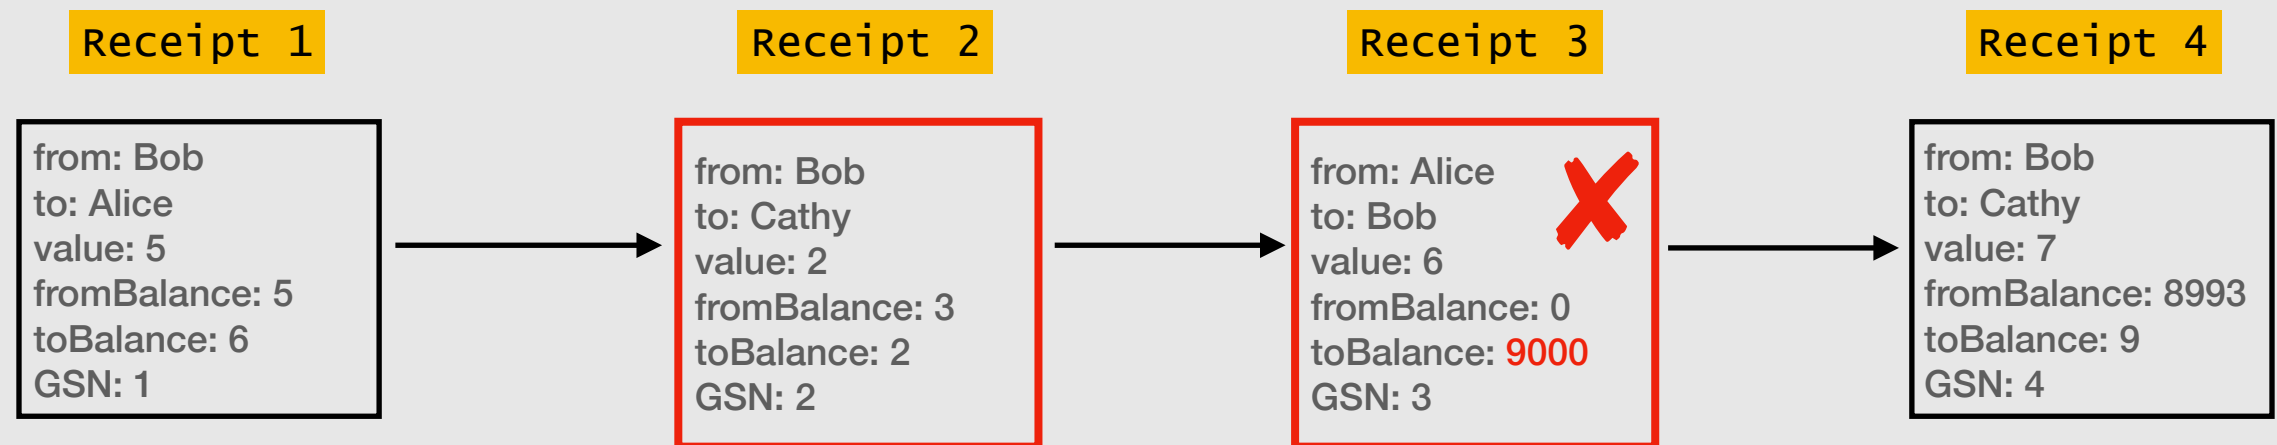

# Fraud Proof (3)

## Skipped GSN

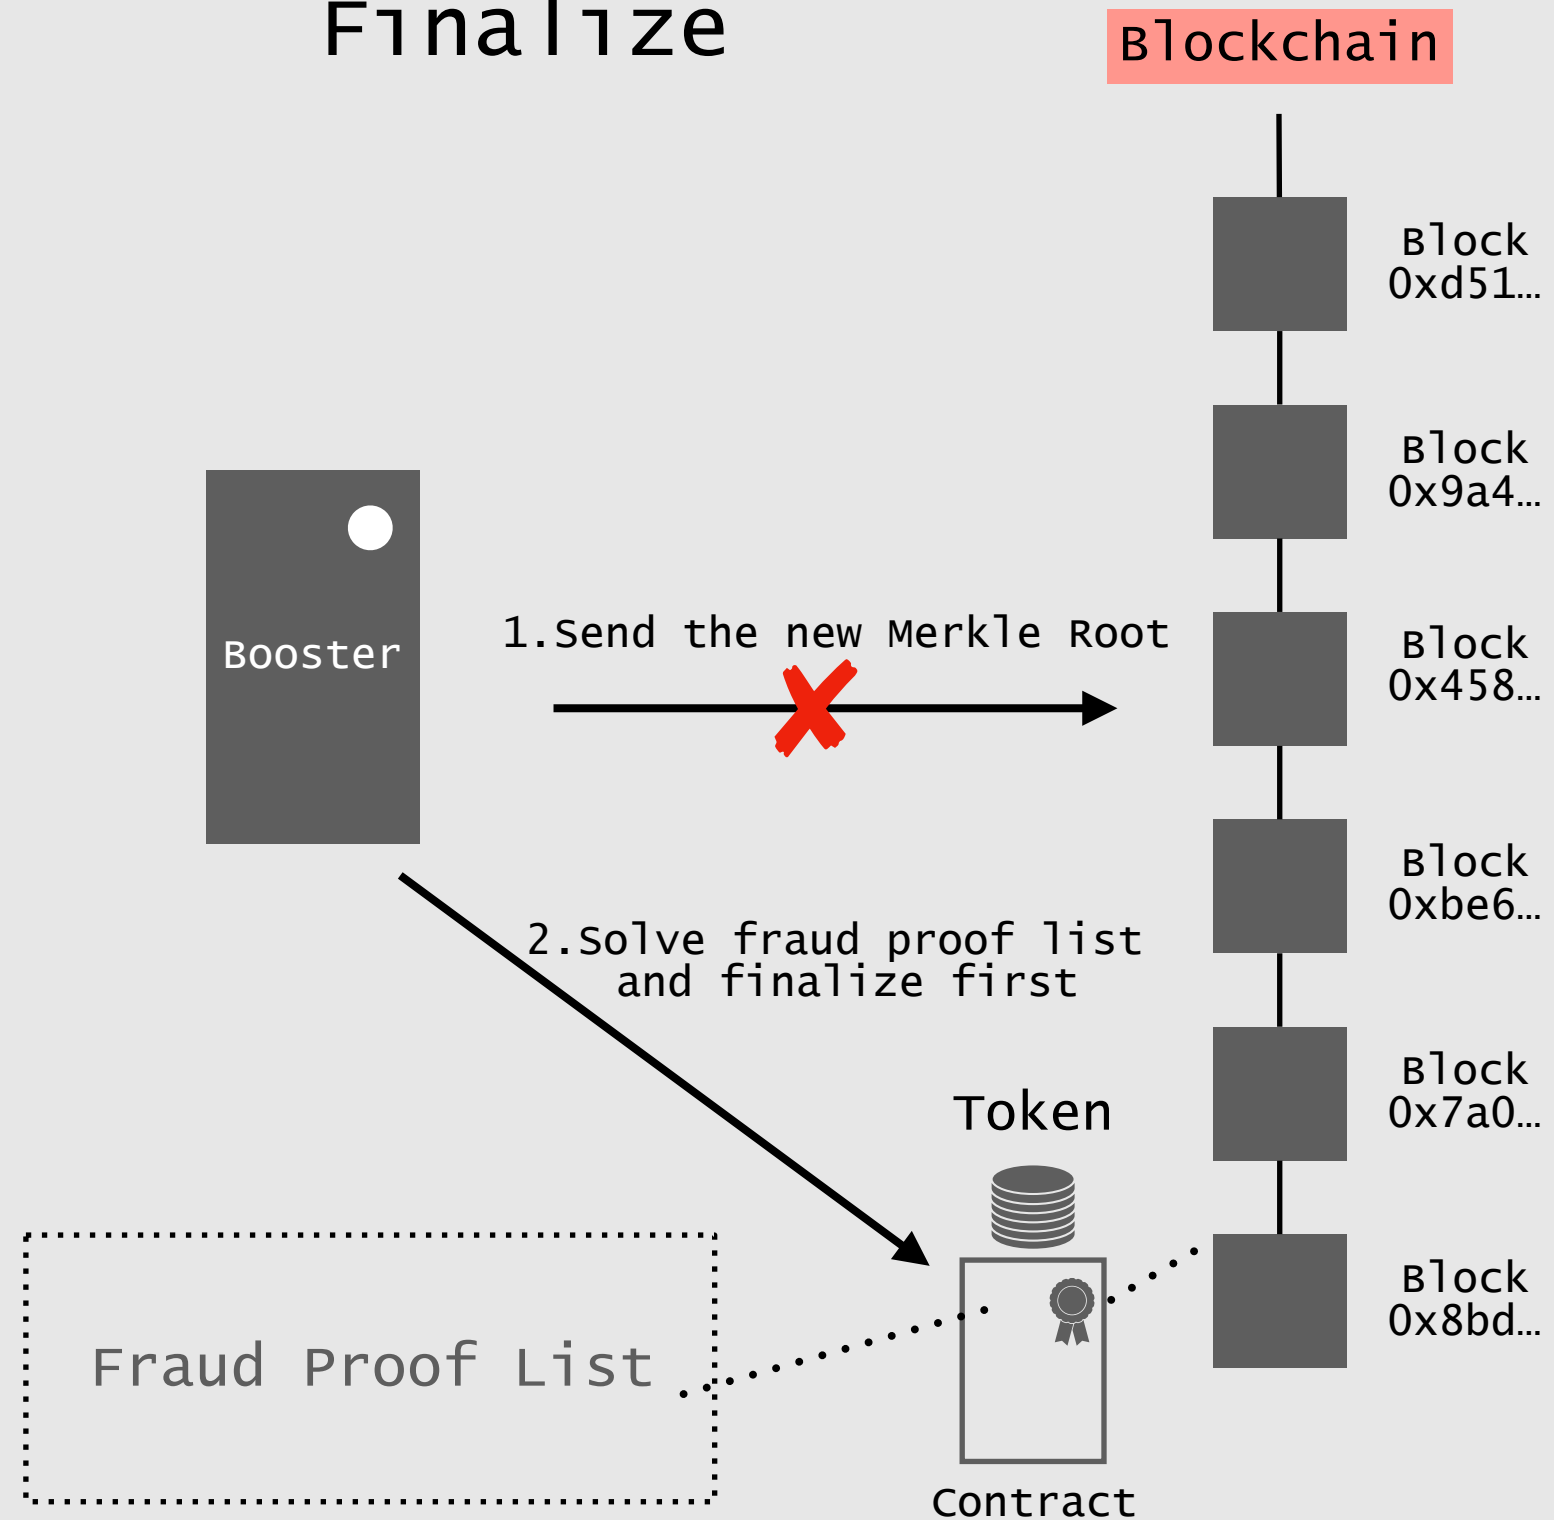

# Fraud Proof (4)

## Wrong Balance Status

# Protocol (11)

## Finalize

# Protocol (12)

## Force withdraw
